'NEXT GENERATION IS GETTING

85

Deerhunter® was established in 1985 as a direct result of Carl D. Engel's passion for hunting and outdoor pursuits

86

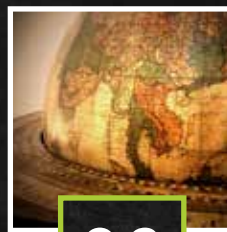

Pile and quilting is transferred from workwear to hunting wear

87

Moleskin is a hit at Deerhunter®

88

Loden cloth are included in the collection at Deerhunter®

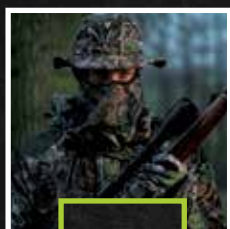

89

Deerhunter® expands outside Denmark into Germany, the Netherlands, Norway and Sweden

90

Deerhunter® is among the first companies in Denmark to incorporate micro-fibre in its clothing

97

Deerhunter® is the first manufacturer in Denmark to launch hunting wear with camouflage

98

First camouflage set "Alabama" in Realtree's X-tra Brown camouflage

99

Outlast® technology, which was originally developed for NASA, is added to the Deerhunter® collection

00

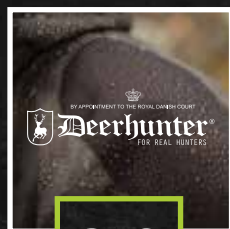

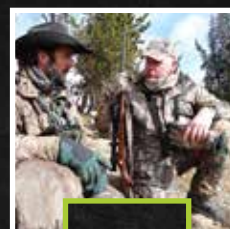

3M™ Thinsulate™ insulation is added to the collection

01

The well-known Ram series with Stormliner and integrated cushion is launched, and proves a huge hit

02

Deerhunter® launches the well-known Montana five-in-one series, as well as Rusky for the extremely cold environments in Russia and Kazakhstan

09

Deerhunter® is granted a royal warrant to supply the royal Danish court

10

The five-year Deer-Tex® Membrane warranty is introduced after 12 years of testing and quality approval

11

Deerhunter® celebrates its 25th anniversary, and is now represented in more than 30 markets

12

The newly developed technology gives rise to "Equipt pixel camouflage". The pixelation adapts to the shapes and colours and like a chameleon it blends into its surroundings

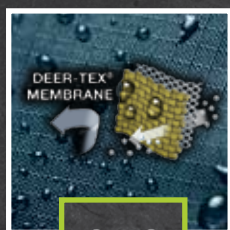

13

Deerhunter® develops "GH Innovation camouflage" with depth and strong contrasts, suitable for most vegetation types in northern and southern Europe

READY FOR HUNTING'

91

The Africa series is launched in honour of the company's founder Carl D. Engel, a passionate big game hunter

92

Deer-Tex® membrane is introduced to the collection

93

Microfibre is added to the Deerhunter® collection

94

Lars C. H. Engel is appointed manager of the Deerhunter® division

95

The collection sees strong increase, catering for different climates and vegetation

96

Safety is now incorporated as an integral part of the Deerhunter® design philosophy

03

Leather is now combined with other fabrics

04

The well-known Smallville series with Hitena® reinforcement is launched

05

Deerhunter® develops its own Innovation-40 camouflage with shapes and shades found in nature from ground to bird height

06

In addition to northern Europe, Deerhunter® expands into southern Europe and east Asia

07

Deerhunter develops its own "Innovation Blaze camouflage" to ensure hunters' safety

08

"DXO by Deerhunter" in tweed is developed for the Scottish highlands

14

Epuipt pixel camouflage in Flaming Blaze is developed with a view to combining functionality and safety in a single product!

15

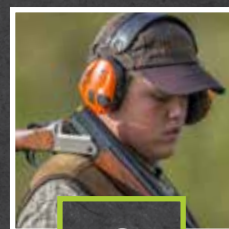

In connection with Deerhunter's 30th anniversary, the company launches its new high-end product: "Muflon", which is awarded a prize at BETA International

16

The Predator series in IN-EQ camouflage is developed for the professional bow and rifle hunter and is designed for use in both lowland and highland terrains

17

The Upland series is created for the demanding hunt. The set is made with durability in mind

?

Next generation is getting ready for hunting 'Carl-Christian Engel'

DEER-TEX® MEMBRANE
FOCUS ON THE CHALLENGE
NOT THE WEATHER!

The dawn is slowly breaking, as you set pace through the landscape. But it isn't picture perfect. The rain is pouring down, and the wind is strong.

You don't really notice. Your body and mind is exactly where it should be. Tuned in on the challenge ahead.
Unaffected by the conditions.

The Deer-Tex® Membrane. For real hunters.

THINSULATE INSULATION KEEPS YOU WARM!

3M™ Thinsulate™ Insulation is used in your jackets, trousers, gloves and hats to help keep you warm when it's cold outside.

The unique microfibers or fine fibers that make up Thinsulate insulation work by trapping air molecules between you and the outside. The more air a material traps in a given space, the better it insulates you from the cold outside air. Because the fibers in Thinsulate insulation are finer than the fibers used in most other synthetic or natural insulation, they trap more air in less space, which naturally makes Thinsulate insulation a better insulator.

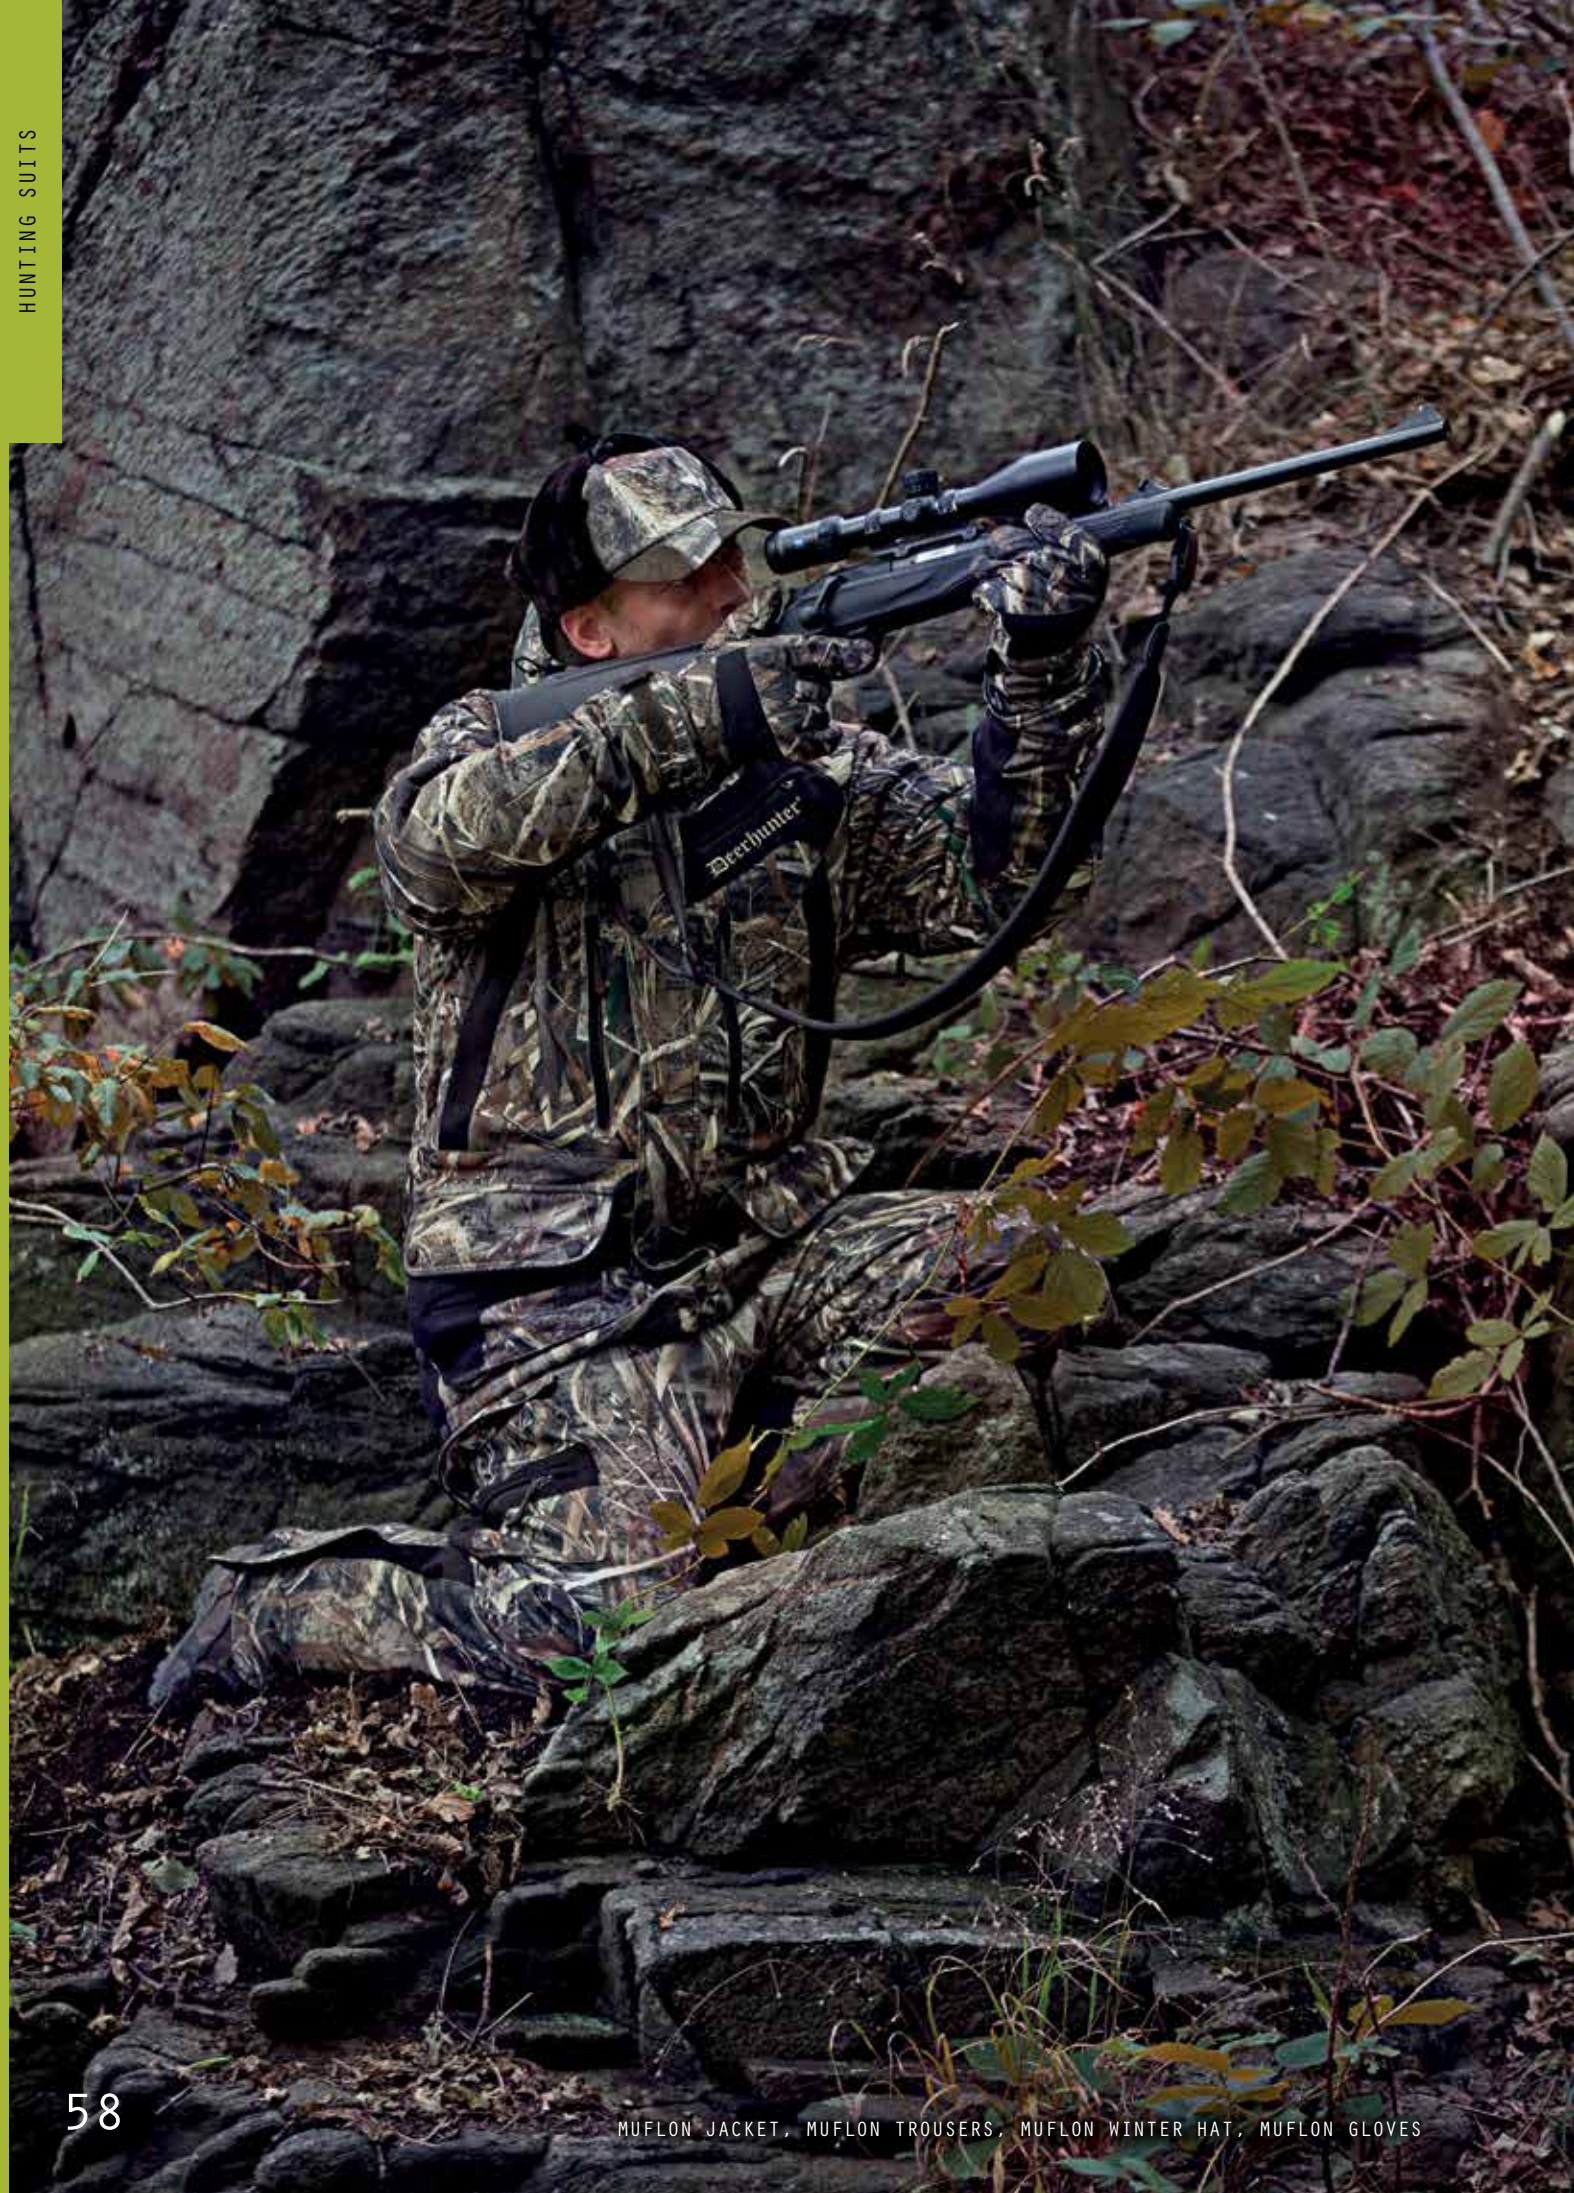

So we haven't re-written the laws of nature with our thin insulation; we've simply improved them...to help keep you warm.

THERMOGRAM OF A COAT INSULATED ON THE RIGHT SIDE WITH FIBERFILL INSULATION AND THE LEFT SIDE WITH 3M™ THINSULATE™ INSULATION.

THE INDUSTRY'S MOST DIVERSE PRODUCT PORTFOLIO—WARMTH SOLUTIONS FOR EVERY LEVEL OF ACTIVITY.	EXCEPTIONAL COMFORT WITH MORE LUXURIOUS FEEL, BETTER DRAP, HIGHER LOFT AND MORE WARMTH IN YOUR GARMENTS.	FLEX IS A UNIQUE, ELASTOMERIC INSULATION THAT PERFORMS UNDER THE EXTREME CONDITIONS OF STRETCHING OR FLEXING.
THIN, LIGHTWEIGHT, WARM, BREATHABLE AND MOISTURE-RESISTANT.	HYDROPHOBIC FIBERS, EXCEPTIONAL WARMTH EFFECTIVE WHEN DAMP.	ELASTOMERIC FIBERS FOR STRETCH AND RECOVERY. FLEXIBLE WARMTH. DESIGNED FOR MOTION.

www.zeiss.com/ht-binoculars

ZEISS VICTORY HT Line A new dimension in hunting.

The Victory® HT 3–12×56 riflescope and the Victory HT 8×54 binoculars from ZEISS are expanding the realms of possibility. Thanks to a revolutionary optic design, hunters will be impressed with a light transmission of 95 % and higher. These ZEISS products now offer you the best light transmission in the history of ZEISS – guaranteed to pinpoint game and ensure a safe and ethical shot – even at dusk.

CAMOUFLAGE PATTERN	124
QUICK GUIDE	128
SIZE GUIDE	131

	DEER-TEX® MEMBRANE
	 The Deer-Text® membrane has several qualities to offer to your garment. 100 % windproof, 100 % waterproof, 100 % breathability. The membrane can be washed at 30 degrees without softener. Technical specifications: Water resistance is up to 10.000 mm, Water Vapour permeability is up to 10.000 g/m²/24h.  Unsere hochwertige Deer-Text® Membrane bietet viele Vorteile: 100 % winddicht, 100 % wasserdicht, 100 % atmungsaktiv. Die Membrane ist bei 30 °C und ohne Weichspüler waschbar. Technische Spezifikation: Die Wasserdichtigkeit ist bis zu 10.000 mm, die Wasserdampfbeständigkeit ist bis zu 10.000 g/m²/24h.  La membrane Deer-Text® offre de nombreuses qualités à votre vêtement. 100 % coupe-vent, 100 % imperméable, 100 % de respirabilité. La membrane peut être lavée à 30 degrés sans adoucisseur. Spécifications techniques : Son imperméabilité est à 10 000 mm, et sa perméabilité à la vapeur d'eau est à 10 000 g/m²/24h.

	DEER-TEX® SUPREME MEMBRANE
	 The Deer-Text® Supreme Membrane has several qualities to offer to your garment. 100 % windproof, 100 % waterproof, 100 % breathability. Technical specifications: Water resistance is up to 10.000 mm, Water Vapour permeability is up to 10.000 g/m²/24h.  Unsere hochwertige Deer-Text® Supreme Membrane bietet viele Vorteile: 100 % winddicht, 100 % wasserdicht, 100 % atmungsaktiv. Technische Spezifikation: Die Wasserdichtigkeit ist bis zu 10.000 mm, die Wasserdampfbeständigkeit ist bis zu 10.000 g/m²/24h.  La membrane Deer-Text® Supreme offre de nombreuses qualités à votre vêtement. 100 % coupe-vent, 100 % imperméable, 100 % de respirabilité. Spécifications techniques : Son imperméabilité est à 10 000 mm, et sa perméabilité à la vapeur d'eau est à 10 000 g/m²/24h.

	DEER-TEX® PERFORMANCE SHELL
	 The Deer-Text® Performance Shell is a membrane laminated to the shell fabric. It is 100 % wind- and waterproof and it is breathable. This membrane is 4-way stretchable and it gives a great feeling and flexibility. Just like the original Deer-Text® membrane it can be washed at 30 degrees without softener. Technical specifications: Water resistance is up to 10.000 mm, Water Vapour permeability is up to 10.000 g/m²/24h.  Das Deer-Text® Performance Shell ist eine Membrane, die laminiert wurde, um eine schützende Schicht zu bilden. Sie ist 100 % wind- und wasserdicht und zugleich atmungsaktiv. Diese Membrane ist in vier Richtungen stretchbar, und gibt Ihnen ein schönes Gefühl sowie Flexibilität. Genau wie die originale Deer-Text® Membrane ist sie bei 30 °C und ohne Weichspüler waschbar. Technische Spezifikationen: Die Wasserdichtigkeit ist bis zu 10.000 mm. Die Wasserdampfbeständigkeit ist bis zu 10.000 g/m²/24h.  Deer-Text® Performance Shell est une membrane stratifiée pour former une couche de protection. 100 % imperméable à l'eau et coupe-vent, elle permet au corps de respirer. Cette membrane souple, extensible dans quatre directions, offre une sensation très agréable. Tout comme la membrane d'origine Deer-Text®, il peut être lavé à 30 degrés sans adoucisseur. Spécifications techniques : Son imperméabilité est à 10 000 mm et sa perméabilité à la vapeur d'eau est à 10 000 g/m²/24h.

	DEERHUNTER STORMLINER® MEMBRANE
	 Stormliner® is our own liner which stops the wind without reducing the breathability of the material. Stormliner® is 99,99% waterproof, as it is not seam sealed.  Stormliner® ist der Name unseres Innenfutters, das vor Wind schützt, ohne die Atmungsaktivität einzuschränken. Stormliner ist zu 99,99% wasserdicht, da nur die Nähte nicht versiegelt werden.  Stormliner® est aussi notre propre doublure. Elle protège du vent sans réduire la respirabilité du matériau. Stormliner® est imperméable à 99,99 % car ses coutures ne sont pas soudées.

	MEMBRANE - 5-YEAR-WARRANTY
	 Five-year warranty on manufacturing defects in the Deer-Text® membranes. In the event of claims: Return the product together with this product information label/hangtag and the receipt from your dealer.  5 Jahre Garantie auf Herstellungsfehler bei der Deer-Text® Membranen. Im Falle von Reklamationen: Schicken Sie das Produkt zusammen mit diesem Etikett/Hängeetikett und der Rechnung von Ihren Händler.  Cinq ans de garantie sur les défauts de fabrication de la membranes Deer-Text®. En cas de réclamation : Retourner le produit avec cette étiquette/étiquette volante d'information produit ainsi que la quittance à votre revendeur.

MEMBRANE TREATMENT	MEMBRANE - TREATMENT
	 Dry garment thoroughly before storing. Do not store in areas of high temperature or humidity. Care instructions: · Machine washable at 30 degrees · Do not use softener · Do not bleach · Do not iron · Do not dry clean · Do not tumble dry · Line Dry   Kleidungsstücke vor dem Waghängen vollständig trocknen lassen. Kleidungsstücken nicht unter zu hoher Temperatur oder Luftfeuchtigkeit aufbewahren. Wasch- und Pflegehinweise: · Waschmaschinenfest bis 30 Grad · Keinen Weichspüler verwenden · Nicht bleichen · Nicht bügeln · Nicht chemisch reinigen · Nicht in den Trockner geben · Zum Trocknen aufhängen   Bien sécher le vêtement avant de le ranger. Ne pas entreposer dans des endroits à température élevée ou humides. D'entretien et de lavage : · Lavable en machine à 30 degrés · Ne pas utiliser d'adoucissant · Ne pas utiliser d'agent de blanchiment · Ne pas repasser · Ne pas nettoyer à sec · Ne pas sécher en machine · Sécher sur un étendage

ECCO BIOM HIKE

ecco®

	DEER-TEX® TEMP
	 A three-layer padding, that collects body heat. The surface material ensures that the heat is encapsulated in the layers and insulates the body.  Ein dreilagiges Polster, das die Körperwärme hält. Das Obermaterial sorgt dafür, dass die Wärme in den Lagen eingekapselt wird und den Körper isoliert.  Un rembourrage à trois couches recueille la chaleur du corps. Le matériau de surface retient la chaleur dans les couches et isole le corps.

	3M™ THINSULATE™ PLATINUM
Platinum	 3M™ Thinsulate™ Platinum Insulation features an excellent blend of synthetic hydrophobic fibers, which results in an exceptional warm and lightweight insulation with a better water resistance.  3M™ Thinsulate™ Platinum Insulation weist, dank einer Mischung aus synthetischen, wasserabweisenden Fasern, ein geringes Gewicht und beste Dämmeigenschaften auf und ist zudem wasserfest.  3M™ Thinsulate™ Platinum, isolant thermique composé d'un excellent mélange de fibres synthétiques hydrophobes offrant une isolation exceptionnelle, chaude et légère, avec une meilleure résistance à l'eau.

	3M™ THINSULATE™ PLATINUM FLEX
Platinum FLEX	 3M™ Thinsulate™ Platinum Flex is a unique elastomeric insulation that performs under extreme conditions. It stretches up to 40% in all direction and pulls right back again without wrinkling your garments.  3M™ Thinsulate™ Platinum Flex ist eine elastomere Isolierung, die unter extremen Bedingungen Höchstleistung bringt. Sie kann um bis zu 40 % in alle Richtungen gedehnt werden und zieht sich gleich wieder zusammen, ohne dass die Bekleidung Falten wirft.  3M™ Thinsulate™ Platinum Flex est un isolant élastomère unique, adapté aux conditions extrêmes. Extensible jusqu'à 40% dans tous les sens, il reprend à nouveau sa forme sans froisser vos vêtements.

	3M™ THINSULATE™
	 3M™ Thinsulate™ Insulation is soft, breathable and able to maintain extra warmth even under damp conditions.  3M™ Thinsulate™ Insulation ist weich, atmungsaktiv und hält selbst in feuchter Umgebung warm.  3M™ Thinsulate™, isolant thermique doux, respirant, offrant une chaleur supplémentaire, même par temps humide.

	WATER REPELLENT
	 Products impregnated with water repellent treatment are water- and dirt-resistant.  Produkte mit wasserabweisender Ausrüstung sind wasser- und schmutzabweisend.  Produits imprégnés hydrofuges résistent à l'eau et à la saleté.

	DEER-X-DURA REINFORCEMENT
	 Deer-X-Dura is a flexible, water repellent reinforcement, placed where clothing is exposed subject to wear and tear. The flexible reinforcement is particularly suitable for the active hunting in challenging terrain, where demands for flexibility and strong, durable quality are high.  Deer-X-Dura ist eine elastische und wasserdichte Verstärkung an allen Stellen der Bekleidung, die bei der Jagd am stärksten beansprucht werden. Die elastische Verstärkung eignet sich besonders gut für körperlich anstrengende Jagdformen in schwierigem Gelände, die hohe Anforderungen an Dehnbarkeit, Widerstandsfähigkeit und Langlebigkeit des Materials stellen.  Deer-X-Dura est un renfort hydrofuge et extensible appliqué aux endroits où le vêtement est le plus exposé à l'usure. Le renfort flexible est particulièrement bien adapté à la chasse active en terrain difficile, où les exigences de qualité sont élevées en matière de souplesse et de résistance à l'usure.

	DEER-DURA REINFORCEMENT
	 Deer-Dura is a water repellent reinforcement, supply where clothing is most exposed subject for use on active hunting.  Deer-Dura ist eine wasserdichte Verstärkung an allen Stellen der Bekleidung, die bei der Jagd am stärksten beansprucht werden.  Deer-Dura est un renfort hydrofuge appliqué aux endroits où le vêtement est le plus exposé à l'usure lors de la chasse active.

	THORNPROOF
	 Extra strong fabric for movement in wilderness.  Besonders strapazierfähiger Stoff für den härtesten Einsatz.  Tissu extra résistant pour se déplacer dans la nature sauvage.

	HITENA™
	 Reinforcement which is used for protective clothing - Durable / Breathable coating / Dirt resistant.  Verstärkung für Schutzkleidung – Strapazierfähig / Atmungsaktive Beschichtung / Schmutzabweisend.  Renfort utilisé pour les vêtements de protection - Durable / Revêtement respirant / Résistant à la saleté.

	CORDURA®
	 Highly wear-resisting, durable reinforcement.  Hohe Strapazierfähigkeit, langlebige Verstärkung.  Renfort durable, hautement résistant à l'usure.

	TEFLON™  Products impregnated with Teflon are water- and dirt-resistant. Stains are easy to remove. Teflon is extremely heat-resistant and has a very smooth surface.  Produkte mit Teflon-Ausrüstung sind wasser- und schmutzabweisend. Flecken lassen sich leicht entfernen. Teflon ist sehr hitzebeständig und hat eine sehr weiche Oberfläche.  Les produits imprégnés Téflon résistent à l'eau et à la saleté. Les taches sont faciles à enlever. Le Téflon est extrêmement résistant à la chaleur et sa surface est très lisse.
--	---

	BAMBOO  Bamboo fiber is naturally anti-bacterial, breathable and environmentally friendly. It is very soft and comfortable to wear and furthermore it regulates the body temperature while neutralizing body odor.  Bambusfaser ist von Natur aus antibakteriell, atmungsaktiv und umweltfreundlich. Sie ist weich und angenehm zu tragen, reguliert die Körpertemperatur und neutralisiert Körpergerüche.  La fibre de bambou est naturellement antibactérienne, respirante et écologique. Elle est très douce et confortable à porter, de plus, elle régule la température du corps tout en neutralisant les odeurs corporelles.
---	--

	QUICK DRY  Body moisture absorption, quick dry and high comfort.  Schweiß absorbierend, schnell trocknend und hoher Tragekomfort.  Absorbe l'humidité corporelle, sèche rapidement, très confortable.
---	---

	2-WAY-STRETCH  Stretchable in 2 directions.  In 2 Richtungen dehnbar.  Extensible dans deux directions.
---	---

	ÆGIS  ÆGIS provides protection against staining, deterioration and odor caused by bacteria, fungi and other microorganisms  Aegis schützt vor Verfärbungen, Beeinträchtigung des Gewebes und Geruch, die durch Bakterien, Pilze oder sonstige Mikroorganismen verursacht werden.  Aegis protège contre les taches, les détériorations et les odeurs causées par des bactéries, des champignons et d'autres micro-organismes
---	---

	4-WAY-STRETCH  Stretchable in 4 directions.  In 4 Richtungen dehnbar.  Extensible dans quatre directions.
---	---

	COOLMAX®  COOLMAX® fabric is the performance fabric that includes an effective fiber-based moisture management system. The system can move perspiration away from the body, and through the fabric, where it can evaporate quickly, allowing the wearer to feel cooler and more comfortable.  COOLMAX® ist ein Hochleistungsgewebe mit effektivem faserbasiertem Feuchtigkeitsmanagement system. Das System transportiert Schweiß vom Körper durch das Gewebe nach außen, wo er schnell verdunsten kann – für ein angenehm kühles und komfortables Körpergefühl.  Le tissu COOLMAX® est un tissu performant dont les propriétés des fibres permettent de maîtriser l'humidité. La transpiration est ainsi éliminée du corps, à travers le tissu, où elle peut s'évaporer rapidement, offrant à l'utilisateur une sensation plus fraîche et plus confortable.
---	--

	NEOPRENE  Neoprene material is stretchable and has very good insulation properties.  Neopren ist dehnbar und hat sehr gute Isoliereigenschaften.  Le néoprène est un matériau extensible possédant d'excellentes propriétés d'isolation thermique.
---	--

	OEKO-TEX  The Oeko-Tex® label shows that the goods have been tested and approved according to the requirements by the international Oeko-Tex® association, regarding the content of chemical substances suspected to be harmful to the body.  Das Oeko-Tex® Label zeigt dass die Ware getestet und zertifiziert ist, in Übereinstimmung mit den Anforderungen der internationalen Oeko-Tex® Gemeinschaft mit Bezug auf den Inhalt chemische Substanzen, die unter Verdacht stehen den Körper schaden zu können.  Le label Oeko-Tex indique que le produit a été testé et approuvé conformément aux exigences fixées par l'Association Internationale Oeko-Tex®, en matière de teneur en substances chimiques suspectées de nuire à l'organisme.
---	---

	YKK  Registered quality zipper.  Qualitäts-Reißverschluss.  Fermeture à glissière de qualité de marque déposée.

RETHINKING IMPACT

A light bullet surpassing a heavy one? ECOSTRIKE™ makes the impossible possible. To make the bullet lighter and prevent it from fragmenting, the lead has been replaced by copper and nickel. With ECOSTRIKE™ we meet a new hunting era, where the sense of being one with nature has reached a higher level. The bullet and its characteristics, takes into account of the rifle, the game, the environment and the meat.

ECOSTRIKE™'s ambition is to always give a positive impact, and to make it a rewarding hunting experience.

ECOSTRIKE™ is developed to give unequalled accuracy, in all circumstances. Its controlled expansion and a very high retained weight, assures consistent behavior and deep penetration, at short and long distances. Accuracy is optimized through unique design and precise production methods. The bullet has patented nickel plating, which minimizes barrel fouling.

MORE CALIBERS SOON TO COME!

INSTANT STOP

One shot and the hunt is over. With TIPSTRIKE™ you keep all the excitement, but avoid all unnecessary drama. The effect is instantaneous, just like the reward and tranquility is restored. The constant pursuit of being a responsible hunter has been achieved.

TIPSTRIKE™ removes unnecessary risks, with an instant stop, to everyone's relief. This is why TIPSTRIKE™ will become the recommended and preferred choice of all responsible hunters and experts.

TIPSTRIKE™ is developed for stopping power, combined with a penetration deep enough to reach the vital organs of the game. The polymer tip assures the expansion and gives a devastating shock effect, due to the construction of the bullet jacket. To maintain a high retention weight, the jacket is reinforced with a mechanical lock thus making TIPSTRIKE™ an outstanding bullet for driven hunts, and other forms of hunting where an immediate stop is crucial.

STRIKE™

PERFECT ENDING

THE MEANING OF

PERFECT ENDING

Know your game, know your terrain.
STRIKE will do the rest.

In a matter of life or death, everything must be on target – expectations and outcome alike. Based on this philosophy, our new ammunition series has been named STRIKE. It's a complete family in which each member contributes in some specific way to a safer hunt and a PERFECT ENDING. It is time to meet the first two members.

TIPSTRIKE™ lets you keep all the excitement, but avoid all unnecessary drama. One shot and the hunt is over. It will make bigger animals like deer and wildboar drop with an instant stop.

ECOSTRIKE™ makes the impossible possible. It is a lighter bullet that outweighs a heavier. It is a lead free, all game bullet and its purpose is to always give a positive impact.

DEDICATED TO PRECISION

DEERHUNTER INNOVATION - COLOR CODE 40

-  Deerhunter Innovation has been created from a mixture of ground hunting scenarios, but also bird level scenarios. The 3D-effect is made more prominent via different earth coloured patterns in order to achieve the optimal camouflage.
-  Deerhunter Innovation wurde auf der Grundlage von Jagdszenarien am Boden sowie über der Erde entwickelt. Verschiedene erdfarbene Muster verstärken den 3D-Effekt und gewährleisten eine optimale Tarnung.
-  Innovation de Deerhunter a été créée à partir d'un mélange de scénarios de chasse au sol, mais aussi de scénarios de chasse aux oiseaux. L'effet 3D est plus important grâce à différents motifs de terre colorés, ceci pour réaliser un camouflage optimal.

DEERHUNTER INNOVATION GH - COLOR CODE 50

-  GH Innovation camouflage is versatile, light, open and designed to suit the whole of Europe. Blend in with the spring, summer and early autumn conditions found in the countryside of Europe.
-  GH Innovation ist ein vielseitiges, leichtes, offenes Tarnmuster, das sich für ganz Europa eignet. Das Tarnmuster eignet sich für den Einsatz in Frühling, Sommer und Frühherbst.
-  Le camouflage GH Innovation est polyvalent, léger, ouvert et conçu pour l'Europe entière. Il se fond dans l'environnement de la campagne en Europe, que ce soit au printemps, en été ou en début d'automne.

DEERHUNTER INNOVATION GH BLAZE - COLOR CODE 77

-  Deerhunter GH Innovation blaze is a mix of GH & Innovation by Deerhunter. The high-visible orange and the deep contrast means you won't be missed by fellow hunters. Safety for all situations.
-  Deerhunter GH Innovation Blaze ist eine Kombination aus GH und Innovation von Deerhunter. Das gut sichtbare Orange und der tiefe Kontrast bedeuten, dass Sie von anderen Jägern nicht übersehen werden können. Sicherheit in jeder Situation.
-  Deerhunter GH Innovation blaze est une composition inspirée des gammes GH & Innovation de Deerhunter. Le coloris orange vif et le contraste profond ne passeront pas inaperçus auprès des autres chasseurs. Sécurité en toutes situations.

DEERHUNTER IN-EQ - COLOR CODE 80

-  Experience and science are the tools behind IN-EQ camouflage clothing – which has thus been created by hunters for hunters. In the work to develop IN-EQ camouflage colours, particular attention has been paid to the contrasts and the importance of the cool colours to make sure they function perfectly in both lowland and highland settings.
-  IN-EQ ist daher das Ergebnis von Beobachtungen während der Jagd, langjährigen Erfahrungen und wissenschaftlichen Erkenntnissen. Oder kurz: Ein Tarnmuster von Jägern für Jäger. Bei IN-EQ wurde ganz besonders auf die Kontraste und die kühlen Farben Wert gelegt, sodass das Tarnmuster für Tief- und Hochland geeignet ist.
-  L'expérience et les connaissances sont à l'origine du camouflage IN-EQ conçu par des chasseurs pour des chasseurs. Lors de la création du camouflage IN-EQ, une attention particulière a été accordée aux contrastes et à la signification des couleurs froides pour offrir une adaptation parfaite aux terrains de plaine et aux reliefs montagneux.

REALTREE ORIGINAL CAMOUFLAGE - COLOR CODE 86

-  Bill Jordan's Realtree Original camouflage has become a classic. Camouflage patterns tested for 30 years. Deerhunter relaunched Realtree Original, 30 years after it was first developed. A true winner for stalking and blind hunting.
-  Bei Jordans Realtree Original Tarnmuster ist mittlerweile ein echter Klassiker. Ein Tarnmuster, das sich seit über 30 Jahren bewährt. Deerhunter bringt sein Realtree Original 30 Jahre nach der Entwicklung erneut auf den Markt. Genau das Richtige für die Pirsch- und Ansitzjagd.
-  Le camouflage RealTree Original de Bill Jordan est devenu un classique. Motif de camouflage testé et utilisé depuis 30 ans. Deerhunter relance Realtree Original, 30 ans après sa création. Un vainqueur assuré pour l'approche et la traque.

DEERHUNTER EQUIPT® FLAMING BLAZE - COLOR CODE 90

-  Equipt® Flaming Blaze pixelation has been developed with a brand new technology in camouflage and it is the only product on the market where you find both functionality and safety in one product! The contrast in the pixelation is changing like a chameleon and makes it difficult for the eye of the game to judge distance. This increases the hunters chance of getting closer to the prey.
-  Bei Equipt® Flaming Blaze handelt es sich um ein mit neuester Technologie hergestelltes Pixelmuster. Sowohl Funktion als auch Sicherheit stehen bei diesem Produkt im Mittelpunkt – eine Seltenheit auf dem Markt. Die Kontraste des Pixelmusters ändern sich wie das Aussehen eines Chamäleons, sodass das Wild die Entfernung kaum abschätzen und sich der Jäger nah heranpirschen kann.
-  Equipt® Flaming Blaze aux motifs pixels est développé selon une toute nouvelle technologie de camouflage, le seul produit sur le marché pensé à la fois en termes de fonction et de sécurité ! Les contrastes des pixels se modifient, changeant comme un caméléon, et rendent difficile l'estimation de la distance par l'œil du gibier. Les chances du chasseur de se rapprocher de sa proie sont ainsi plus grandes.

REALTREE MAX-5 - COLOR CODE 95

-  MAX-5 pattern elements are strategically placed to create super-realistic tone, contrast and shadow. Viewed up close, MAX-5 offers incredible detail. At a distance, the pattern obliterates the human outline completely. The result? Maximum effectiveness for your waterfowl success.
-  Alle Muster des MAX-5-Tarnstoffs sind so verteilt, dass sie sehr naturgetreu und echt aussehen. Aus der Nähe betrachtet ist MAX-5 sehr detailgetreu und aus der Ferne sind menschliche Umrisse kaum auszumachen. Das Ergebnis: Beste Tarnung bei der Jagd auf Wasservögel.
-  Bien sûr, tous les éléments des motifs MAX-5 sont stratégiquement placés pour créer des tons, des contrastes et des ombres très réalistes. Vu de près, MAX-5 offre des détails incroyables. De loin, le motif absorbe complètement les contours de la forme humaine. Le résultat ? Un maximum d'efficacité et de réussite avec le petit gibier d'eau.

A PHOTOGRAPHER'S TALE

BALANCING VISIBILITY

Being a hunter involves being both visible and invisible. You have to blend into your surroundings. But you also need to make your presence known to other hunters.

Being camouflaged not only gives us more close encounters with the game. It also often gives us a more reliable shot. However, it can be necessary to use signal colours. Especially when hunting with others.

Modern hunting apparel is about being both camouflaged and visible. And knowing when to give priority to one or the other.

When we are not hunting, it is also more important than ever to know when to be visible and when to keep a low profile.

It is not only the hunting industry that has to continually develop in order to retain its leading position in the market. Hunters must also do so.

In this regard, the social media are both a unique opportunity and a major challenge.

They give hunters an opportunity to spread their positive message. For example, that hunting is an element of natural conservation. But a single post can also raise a storm for hunting that we would have preferred to avoid.

Hunters should therefore carefully consider how visible they want to be in the media. There is no list of right and wrong. It is largely a matter of intuition or instinct.

But if we focus on the joy of hunting, present the slain animals with respect and avoid the most gory pictures, we will do fairly well.

We need to be visible, but not too visible. We want to be respected for our lifestyle. We must similarly respect those who have not yet understood us.

ÜBER SICHTBARKEIT UND UNSICHTBARKEIT

Beim Jäger geht es darum sichtbar und unsichtbar zugleich zu sein. Einerseits soll er mit seiner Umgebung eins werden. Andererseits muss er sich anderen Jägern zu erkennen geben.

Die Tarnung ermöglicht uns nicht nur, das Wild aus nächster Nähe zu erleben. Häufig erlaubt sie uns Schüsse, die zielsicherer sind. Die Verwendung von Signalfarben kann aber auch eine Notwendigkeit sein. Vor allem wenn wir mit anderen auf die Jagd gehen.

Bei moderner Jagdbekleidung geht es darum getarnt und sichtbar zugleich zu sein. Und um das Wissen, wann das eine und wann das andere oberste Priorität hat.

Aber auch wenn wir nicht auf der Jagd sind, ist es heute wichtiger denn je zu wissen, wann man sichtbar sein muss und wann man sich besser nicht zeigt.

Nicht nur in der Jagdbranche muss, wer eine führende Position am Markt behalten möchte, sich ständig weiterentwickeln. Das gilt auch für die Jäger.

In diesem Zusammenhang stellen die sozialen Medien eine einmalige Chance und eine große Herausforderung dar.

Einerseits bieten sie Jägern die Gelegenheit, die richtige Botschaft zu verbreiten. Beispielsweise, dass die Jagd dem Naturschutz dient. Andererseits kann ein einziges Posting zur Jagd einen Sturm auslösen, in den man besser nicht gerät.

Deshalb müssen sich Jäger sehr genau fragen, wie sichtbar sie in der Medienlandschaft sein möchten. Dafür gibt es kein allgemein gültiges Rezept. Vielmehr ist es eine Gefühlssache. Oder eine Frage des Instinkts.

Aber wer die Freude an der Jagd in den Mittelpunkt stellt, den erlegten Tieren seinen Respekt erweist und auf die blutigsten Bilder verzichtet, wird kaum daneben treffen.

Wir müssen sichtbar sein, aber nicht zu sichtbar. Wir möchten, dass unser Lebensstil respektiert wird. Wir müssen dafür jene Menschen respektieren, die uns noch nicht verstehen.

LA QUESTION EST D'ÊTRE VISIBLE ET INVISIBLE

En tant que chasseur, il s'agit d'être à la fois visible et invisible. D'un côté il faut se fondre dans l'environnement. Et de l'autre, il faut être reconnu par les autres chasseurs.

En se camouflant, nous ne nous rapprochons pas seulement du gibier. Nous réalisons souvent un tir plus sûr. L'utilisation de couleurs vives peut se révéler toutefois nécessaire. Spécialement lorsque nous chassons avec d'autres chasseurs.

Le vêtement de chasse moderne permet à la fois de se camoufler et d'être visible. Et il est nécessaire de savoir quelle priorité accorder à l'une ou l'autre de ces options.

Mais même lorsque nous ne sommes pas à la chasse, il est plus important que jamais de savoir quand il faut être visible et quand faire profil bas.

Et ce n'est pas seulement le secteur de la chasse qui doit constamment se développer si l'on veut maintenir ses positions de leader sur le marché. Il en est de même des chasseurs.

Dans ce contexte, les médias sociaux sont à la fois une opportunité unique et un grand défi.

D'une part, les chasseurs ont eu l'occasion de faire passer leurs messages positifs. Par exemple que la chasse est en accord avec la protection de la nature. Mais d'autre part, une simple publication peut entraîner la chasse dans un tumulte dont nous nous serions bien passés.

Par conséquent, les chasseurs doivent considérer attentivement la façon dont ils souhaitent être visibles dans les médias. Il n'y a pas de formule standard. C'est avant tout une question d'intuition. Ou d'instinct.

Mais si l'on se concentre sur le plaisir de la chasse, on fait preuve de respect envers les animaux abattus, l'on évite les photos les plus sanglantes et ainsi on risque moins l'erreur.

Nous devons être visibles, mais pas trop. Nous souhaitons le respect de notre mode de vie. Nous devons par conséquent respecter aussi les personnes qui n'ont pas encore compris le nôtre.

ACCIDENTS HURT - SAFETY DOESN'T!

Most animals do not register colours in the same way as humans. They see contrasts! Consequently, the fact that the clothing is orange will not affect the hunting but on the other hand, it helps you and your fellow hunters to see one another clearly.

Cert. no. CC-000033/DK

A man with a beard and short hair is shown from the waist up, looking off to the side. He is wearing a dark brown Deerhunter cap with the brand name on the front. His jacket is a mix of dark green, brown, and grey, with a high turtleneck and a zippered front. A strap with the Deerhunter logo and 'FOR REAL HUNTERS' is visible over his right shoulder. The background is a blurred forest with autumn foliage in shades of yellow and orange.

FEEL COMFORTABLE
WHEREVER YOU GO

INNER LAYER		
	Inner layer (Underwear)	
	VERY ACTIVE: COLD: TEMPERATE: SYNTHETICS	STATIONARY: MERINO WOOL SYNTHETICS/COTTON
	Wool: Warmer wet or dry · Wicks moisture better than cotton · Takes longer to dry than a synthetic fabric. Synthetic fabrics: Excellent moisture-wicking properties · Dry fast · More durable than wool. Cotton: Comfortable to wear · Absorbs moisture rather than wicking it · Warms best when dry.	
	Innere Schicht (Unterwäsche)	
	SEHR AKTIV: KALT: TEMPERIERT: KUNSTFASERN	STATIONÄR: MERINOWOLLE KUNSTFASERN/BAUMWOLLE
	Wolle: Wärmt sowohl in trockenem, als auch in feuchtem Zustand · Leitet Schweiß besser ab als Baumwolle · Trocknet länger als Kunstfasern. Kunstfasern: Hervorragende Schweißdurchlässigkeit · Schnell trocknend · Strapazierfähiger als Wolle. Baumwolle: Angenehm auf der Haut · Saugt den Schweiß auf, transportiert ihn aber nicht weiter · Wärmt am besten in trockenem Zustand.	
	Vêtement intérieur (sous-vêtement)	
	ACTIVITÉ IMPORTANTE: FROID: TEMPÉRÉ: TISSU SYNTHÉTIQUE	FAIBLE ACTIVITÉ: LAINE MÉRINOS TISSU SYNTHÉTIQUE/COTON
	Laine: Réchauffe à la fois en étant sèche ou mouillée · Meilleure que le coton pour transférer la sueur · Prend plus de temps pour sécher qu'une matière synthétique. Matière synthétique: Excellentes propriétés de transfert de la sueur · Sèche rapidement · Plus résistante à l'usure que la laine. Coton: Agréable à porter · Absorbe la sueur au lieu de la transférer · Réchauffe mieux à l'état sec.	

MERINO WOOL JERSEY ZIP-NECK

MIDDLE LAYER		
	Intermediate layer (e.g. fleece, knitwear, shirt)	
	COLD: TEMPERATE: FLEECE/KNITWEAR WITH MEMBRANE ARE BEST FLEECE/KNITWEAR/SHIRT ARE BEST	
	Zwischenschicht (Fleece, Strick, Hemd usw.)	
	KALT: TEMPERIERT: BEI KALTEM WETTER IST FLEECE/STRICK MIT MEMBRANE VORZUZIEHEN HIER IST FLEECE/STRICK/HEMD O. Ä. VORZUZIEHEN	
	Vêtement intermédiaire (par ex. molleton, tricot, chemise)	
	FROID: TEMPÉRÉ: DE PRÉFÉRENCE UN MOLLETON OU UN TRICOT AVEC MEMBRANE DE PRÉFÉRENCE UN MOLLETON, UN TRICOT, UNE CHEMISE OU ASSIMILÉS	

KENDAL KNIT CARDIGAN

OUTER LAYER		
	Outer shell	
	COLD: TEMPERATE: WITH MEMBRANE - WATERPROOF/WINDPROOF/BREATHABLE + INSULATION WITH MEMBRANE - WATERPROOF/WINDPROOF/BREATHABLE	
	Depending on temperature, the inner layer and/or the outer shell can be added/removed. To maintain optimum breathability of the outer shell with membrane, we recommend that you wear an intermediate layer without a membrane.	
	Äußere Schicht (Wetterschutzkleidung)	
	KALT: TEMPERIERT: MIT MEMBRANE - WINDDICHT/WASSERDICHT/ATMUNGSAKTIV + ISOLIERUNG MIT MEMBRANE WINDDICHT/WASSERDICHT/ATMUNGSAKTIV	
	Je nach Temperaturverhältnissen kann die innere und/oder äußere Lage ergänzt werden oder entfallen. Zur Erhaltung der Atmungsfähigkeit einer Schutzschicht mit Membrane empfiehlt sich eine Zwischenlage ohne Membrane.	
	Vêtement de dessus	
	FROID: TEMPÉRÉ: AVEC MEMBRANE - IMPERMÉABLE/COUPE-VENT/PERMET AU CORPS DE RESPIRER + ISULATION AVEC MEMBRANE - IMPERMÉABLE/COUPE-VENT/PERMET AU CORPS DE RESPIRER	
	Selon la température, le vêtement intérieur et le vêtement de dessus peuvent être ajoutés ou retirés. Pour permettre au corps de respirer de manière optimale avec un vêtement de dessus avec membrane, il est recommandé d'utiliser un vêtement intermédiaire sans membrane.	

MUFLON JACKET

The new Shotgun class

Rifles can only be sold to permit holders.
BRANDMARK © 2016

F16 GAME

The F16 has probably the lowest break-down frame in the shotgun sector, which puts it in a class of its own. Its unique and easy handling, as well as the excellent vibration behaviour, significantly facilitate intuitive hitting. On the hunt, as well as on the sporting clays range.

Blaser

SIZE / GRÖSSE / TAILLE

This is how to measure yourself correctly. Get someone to help you so you can measure more exactly. Keep your shirt and trousers on and stand in a relaxed position. Place the measuring tape around the body. The tape should be reasonably taught, but not too tight. If you allow enough space to slide a finger under the tape, you will get the correct measurements.

So messen Sie richtig: Bitten Sie jemanden Ihnen zu helfen, damit die Maße genau abgenommen werden. Behalten Sie Hemd und Hose an und stehen Sie entspannt. Lassen Sie die Arme locker hängen. Führen Sie das Maßband rund um den Körper. Es sollte dicht am Körper anliegen, aber nicht stramm gezogen werden. Es darf nur einen Finger breit Platz unter dem Maßband sein, dann finden Sie die richtige Größe.

Pour mesurer correctement votre taille, faites-vous aider par quelqu'un. Vos mesures seront plus précises. Gardez votre chemise et vos pantalons et tenez-vous debout, en position décontractée. Baissez les bras. Passez le mètre-ruban autour de votre corps. Veillez à ce qu'il entoure bien le corps, sans serrer. Passez un doigt sous le ruban pour obtenir des mesures correctes.

- Measure your hand circuit (below the knuckles)
- Handumfang unterhalb der Knöchel messen.
- Autour de la main (sous les doigts)

WHY DO WE HUNT?

Every hunt is a story that unfolds around you. From the very first step your senses rise, you start to register every sound, smell and colour and no matter what path you choose through the woods, you are the main character, the hunter.

Somewhere out there, there's an animal, you feel close to it, you feel challenged. You fall into the rhythm of the game, and follow its instincts and as you enter the heart of the hunt, your own breath becomes all that you can hear.

There will be a fight! The story will peak and within this tale, you feel touched by something epic.

That's why we hunt.
