AT DEERHUNTER WE ARE ALL HUNTERS

Lars E, Deerhunter

Sascha S, Germany

Morten F, Denmark

Martin K, Czech Republic

"LOVING WHAT WE DO, AND DOING WHAT WE LOVE"

At Deerhunter we are hunters, so we know from our own experience how an outfit has to feel when it's designed to be used.

A Deerhunter man is at one with nature, both as a person and in the clothes he is wearing - so that he can focus on his true goal: The hunt!

That's how it was in 1985
- and how it still is today!

Deerhunter is now represented in over 30 countries. Below you can find a selection of Real Hunters...

Shirts - Page 93

Shirts in 100% cotton

Discover - Page 99 - 107

Comfortable 4-way stretcch - cover your head & hands

Braces - Page 108

Trouser braces with Deerhunter logo, choose between braces with clips or for buttons

DEER-TEX® MEMBRANE

Focus on the challenge not the weather

The dawn is slowly breaking, as you set pace through the landscape. But it isn't picture perfect. The rain is pouring down, and the wind is strong.

You don't really notice. Your body and mind is exactly where it should be. Tuned in on the challenge ahead. Unaffected by the conditions.

The **Deer-Tex®** Membrane. For real hunters.

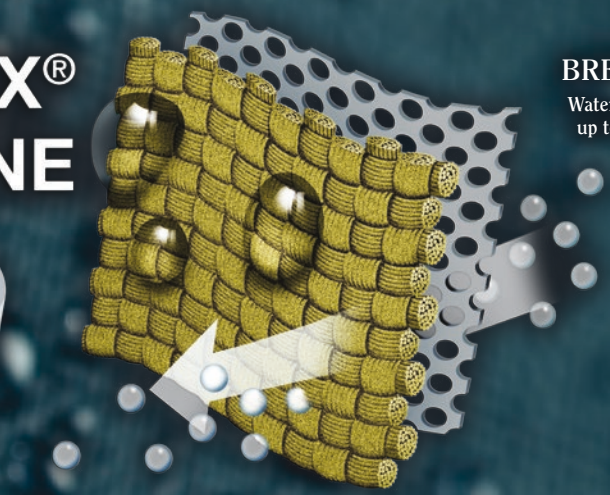

Deerhunter
Deerhunter®
CAMOUFLAGE IN-EQ

PREDATOR – invisible success!

Most hunters know the feeling: You're standing in a thicket in a field early in the morning, shaded from the sun that is just beginning to peep out over the horizon – but you can't make your way into the woods under cover of the greenery for fear of making a noise; the fox is mousing 350 metres out in the newly harvested field, and you want to get into range!

Predator – featuring the very latest IN-EQ camouflage colours – is the latest range from Deerhunter for bow and rifle hunters keen to experience authentic 'close encounters'.

IN-EQ has been developed for the climatic conditions in both highland and lowland areas. The colours are cool and the contrasts are sharp as in Central Europe. IN-EQ effectively eliminates the wild animals' 'home field advantage' as it allows you to blend seamlessly into the surroundings and get right up close. The Predator Range comprises two different jackets designed for bow and rifle hunters, respectively, as well as an smock/anorak, trousers, a cap, face mask, beanie and gloves. The entire set is liberally sprinkled with hi-tech features testifying to attention to even the tiniest detail. The set is distinguished by high breathability, and with a Deerhunter Stormliner membrane, you can be sure of staying dry. The set is designed with a variety of fits that ensure maximum flexibility and thus complete freedom of movement for your active hunting forays. Predator has nothing to do with American sci-fi films – it is both real and utterly natural. Get closer to wildlife with Predator.

Die meisten Jäger kennen das. Sie stehen frühmorgens am Feldesrand in einem Dickicht, geschützt vor der aufgehenden Sonne, die bereits über den Horizont schaut. Sie können sich nicht in die Deckung des Waldes zurückziehen, da Sie sonst zu viel Lärm machen würden. 350 Meter entfernt jagt der Fuchs auf dem abgeernteten Feld nach Mäusen und Sie möchten gerne auf Schussnähe herankommen.

Predator – mit dem ganz neuen IN-EQ-Tarnmuster – ist die neueste Serie von Deerhunter für Bogen- und Büchsenjäger, die das Erlebnis suchen.

IN-EQ eignet sich für die klimatischen Bedingungen in Tief- und Hochland. Die kühl gehaltenen Farben und scharfen Kontraste sind für das zentrale Europa wie gemacht. Mit IN-EQ sind Sie dem Wild überlegen. Sie werden eins mit der Natur und kommen dicht heran. Die Predator-Serie besteht aus zwei unterschiedlichen Jacken, die sich an Bogen- und Büchsenjäger richten, Anorak, Hose, Cap, Gesichtsmaske, Beanie und Handschuhen. Das ganze Set ist mit Hi-Tec-Funktionen gespickt, und selbst kleinste Details wurden nicht dem Zufall überlassen. Die Kleidung ist sehr atmungsaktiv und eine Deerhunter Stormliner Membran hält den Körper warm. Der intelligente Schnitt sorgt für maximale Flexibilität und Bewegungsfreiheit bei der aktiven Jagd. Predator hat nichts mit amerikanischen Science-Fiction-Filmen zu tun – Predator ist wirklich und natürlich. Mit Predator kommen Sie noch dichter an das Wild heran.

La plupart des chasseurs le savent. Vous êtes dans un champ tôt le matin, à l'orée de la forêt et à l'abri du soleil qui pointe à l'horizon. Vous ne pouvez pas vous dissimuler dans la végétation, car le bruit vous trahirait. Un renard se trouve à 350 mètres, dans un champ qui vient d'être fauché, et vous aimeriez le mettre dans votre ligne de tir !

Predator, avec le tout nouveau camouflage IN-EQ, est la dernière gamme de Deerhunter destinée aux chasseurs à l'arc et à la carabine, chasseurs à la recherche de sensations de proximité.

IN-EQ est conçu pour les conditions climatiques de plaine et d'altitude. Les coloris sont frais et très contrastés, comme en Europe centrale. Avec IN-EQ, le gibier n'a plus l'avantage du terrain, vous faites partie de l'environnement et vous pouvez sensiblement vous en approcher. La gamme Predator comprend deux blousons différents destinés à la fois aux chasseurs à l'arc et à la carabine, un anorak, un pantalon et une casquette, un masque, un bonnet et des gants. L'ensemble comporte des accessoires high-tech parfaitement conçus dans les moindres détails. Il possède un haut degré de respirabilité et vous maintient au sec grâce à sa membrane Deerhunter Stormliner. La gamme est conçue dans de nombreuses coupes offrant un maximum de souplesse et par conséquent une grande liberté de mouvement pour la chasse active. Predator n'a rien à voir avec le film de science-fiction américain du même nom, cette gamme étant à la fois bien réelle et tout à fait naturelle ! Rapprochez-vous du gibier grâce à Predator !

Organic Perfection

R8 Success

The success story continues. At Blaser we believe the natural world had it right all along and our goal is to combine ergonomic perfection with the soul of elegant Caucasian Walnut. To underscore this modern classic, exotic ebony wood was carefully selected to accent the fore arm tip and the pistol grip cap.

At the peak of perfection, the R8 Success combines unique design with the most modern technology.

Signal clothing - It's important to be visible!

Patrik Bollrath

Jagd-Team Nordschleswig

Recommends - Blaze (Recon) from Deerhunter

DANMARKS JÆGERFORBUND

Claus Lind Christensen

Chairman of the Danish Hunters Association

It's important to be visible.
This is particularly true for pedestrians, cyclists and other vulnerable road users. However, it also applies to climbers, road workers, paramedics, hikers, sailors, kindergarten children in the woods, and all of us who hunt.

Hunters must follow some very simple rules if we are to feel safe when hunting. And we must. We need to be in full control of our weapons, always respect the designated lines both when walking and standing still, and we must be visible out there. It must be possible to see a hunter from a distance, so that it's not just the person standing next to him in a chain, but indeed all his hunting companions who are considerably further away who can see him. This is where bright colours come into the picture.

You often hear the tired phrases ... "It has incredible signal value" or "It's important to send a clear signal". These expressions are used to talk about all sorts of things, but here – in the context of hunting – the bright colours, or signal colours, take on a meaning of their own. They are colours that send a clear signal: This is where I am sitting, standing or walking. Take care!

Even though "appearing" in signal colours when you go hunting is becoming increasingly common, I very much hope that even more Danish hunters will adopt the trend. And no – the game cannot see the signal colours. In this respect, their lives are as grey as grey.

Good hunting! Hope to see you – also from a distance.

Für Fußgänger oder Radfahrer kann es überlebenswichtig sein, von anderen Verkehrsteilnehmern gesehen zu werden. In vielen Situationen gilt das ebenso für Kindergartenkinder, Straßenarbeiter, Rettungskräfte, Kletterer, Wanderer, Segler und auch Jäger.

Damit eine Jagd ordnungsgemäß ablaufen kann, gelten ganz klare Verhaltensregeln. Der Jäger muss seine Waffe sicher und verantwortungsvoll führen. Er darf bei der gemeinsamen Jagd nicht aus der Schützenreihe treten oder seinen Stand verlassen. Jeder muss seine Mitjäger sehen und selber gesehen werden können – nicht nur von seinem nächsten Nachbarn, sondern auch aus der Distanz. Genau dabei hilft Bekleidung in grellen Signalfarben.

Oft hört man abgedroschene Sätze wie: „Es ist wichtig, ein klares Signal zu senden" oder „Das hat Signalwirkung". Bei der Jagd ergeben sie wirklich Sinn, denn mit einem Kleidungsstück in Signalfarbe teilt der Jäger seinen Kollegen mit: „Gebt Obacht, hier bin ich."

Auch wenn Jagdbekleidung in Signalfarben von Jägern gut angenommen wird, würde ich mir wünschen, dass noch mehr diesem Beispiel folgen. Das Wild sieht die Signalfarben übrigens nicht, da es nur Grautöne erkennen kann.

In diesem Sinne: Waidmannsheil!
Ich hoffe, wir sehen uns – auch aus der Ferne.

Il s'agit d'être vu, votre vie en dépend.
Ceci est particulièrement vrai pour les piétons, les cyclistes et les autres usagers de la route vulnérables. Mais cela concerne aussi les alpinistes, les personnes travaillant sur la chaussée, les secouristes, les randonneurs, les marins, les tout-petits de la maternelle en excursion et nous aussi les chasseurs.

Pour nous chasseurs, des règles très simples s'appliquent si nous voulons chasser en toute sécurité. Et nous le voulons vraiment ! Nous devons maîtriser un bon port d'armes, toujours nous assurer de rester sur une ligne bien définie, à la fois lorsque nous avançons et quand nous nous arrêtons, ceci afin d'être vu. Être vu de loin, voir non seulement le chasseur à proximité, mais aussi les camarades de chasse qui sont placés beaucoup plus loin. Et c'est ici que les couleurs vives entrent en jeu.

On entend si souvent les mêmes phrases ... "cela donne une bonne valeur au signal" ou "il est important de transmettre un signal clair". Ces termes sont utilisés à tout va mais ici, pour la chasse, utiliser des couleurs vives, des couleurs bien visibles, s'impose. Des couleurs qui envoient un message clair : - Je suis ici, assis, debout ou je marche. Attention !

Bien qu'il soit déjà de plus en plus normal d'aller à la chasse en portant des couleurs bien visibles, j'espère qu'encore davantage de chasseurs suivront cette tendance. Par contre, non, le gibier ne voit pas les couleurs vives... Pour ce dernier, la vie est dans les tons gris sur gris.

Bonne chasse ! Au plaisir de se voir, même de loin.

Thinsulate in your hunting clothes
will help keep you warm when
it's cold outside!

Thinsulate Insulation keeps you warm!

3M™ Thinsulate™ Insulation is used in your jackets, trousers, gloves and hats to help keep you warm when it's cold outside.

The unique microfibers or fine fibers that make up Thinsulate insulation work by trapping air molecules between you and the outside. The more air a material traps in a given space, the better it insulates you from the cold outside air. Because the fibers in Thinsulate insulation are finer than the fibers used in most other synthetic or natural insulation, they trap more air in less space, which naturally makes Thinsulate insulation a better insulator.

So we haven't re-written the laws of nature with our thin insulation; we've simply improved them…to help keep you warm.

Thermogram of a coat insulated on the right side with fiberfill insulation and the left side with 3M™ Thinsulate™ Insulation.

3M Thinsulate™ Platinum INSULATION FLEX

Flex is a unique, elastomeric insulation that performs under the extreme conditions of stretching or flexing.

1. Elastomeric fibers for stretch and recovery
2. Flexible warmth
3. Designed for motion

3M Thinsulate™ Platinum INSULATION

Exceptional comfort with more luxurious feel, better drap, higher loft and more warmth in your garments.

1. Hydrophobic fibers
2. Exceptional warmth
3. Effective when damp

3M Thinsulate™ INSULATION

The industry's most diverse product portfolio–Warmth solutions for every level of activity.

1. Thin, lightweight, warm
2. Breathable
3. Moisture-resistant

MUFLON - Don't settle for second-best!

As a serious hunter, you must not settle for second-best – you must continue to develop new and up-to-date equipment. We have decided to celebrate our 30th anniversary with a genuine high-end range called Muflon. In creating Muflon, Thinsulate insulation and Deer-Tex membrane have been used, offering a five-year warranty. The range is available in two different colours: Art-Green and Max-5 camouflage. It boasts a wealth of smart features – water-tight zippers, trousers with moulded knees, four-way stretch fabric and a stylish design are just some of the details you can look forward to. The Muflon range comprises: bib overall, trousers with braces, jacket, a short jacket as well as gloves with reinforcements and several kinds of headgear. No one is left behind – Deerhunter creates the future!

Als anspruchsvoller Jäger solle man sich nicht mit dem Nächstbesten begnügen, sondern stets auf neue, zeitgemäße Ausrüstung setzen. Mit der High-End-Jagdbekleidungsserie Muflon möchten wir das 30-jährige Jubiläum der Marke Deerhunter gebührend feiern. Die Jagdbekleidung Muflon hat eine Thinsulate-Füllung und eine Deer-Tex Membrane mit 5 Jahren Garantie. Zu Auswahl stehen die Farben Art-Green und Max-5 Camouflage. Wasserdichte Reißverschlüsse, eine Hose mit vorgeformtem Kniebereich, 4-fach dehnbarer Stoff, sowie ein ansprechendes Design sind nur einige der vielen Details. Zur Bekleidungsserie Muflon gehören Latzhose, Hose mit Trägern, Jacke und Bundjacke, Handschuhe mit Verstärkungen sowie mehrere Kopfbedeckungen. None are left behind – Deerhunter creates the future!

Le chasseur sérieux ne doit pas se contenter de produits de seconde zone. Pour lui, on se doit de développer constamment des équipements nouveaux et contemporains. Nous avons décidé de célébrer notre 30ème anniversaire avec un véritable ensemble haut de gamme baptisé Muflon. L'ensemble est isolé avec du Thinsulate et comporte une membrane Deer-Tex garantie 5 ans. Il est disponible en deux coloris : Art-Green et camouflage Max-5. Vous pourrez apprécier de nombreuses fonctionnalités intéressantes comme les fermetures à glissière étanches, le pantalon moulé au niveau des genoux, un matériau totalement extensible et souple, ainsi qu'une conception élégante, pour ne citer que quelques détails. Muflon est disponible en plusieurs versions : cottes à bretelles, pantalon à bretelles, veste, veste courte ainsi que des gants avec renforts et plusieurs couvre-chef. Rien n'est laissé de côté : Deerhunter, une création d'avenir.

ZEISS VICTORY

The moment where everything is simply perfect.

Perfection, precision, performance: ZEISS VICTORY V8 4.8–35x60.

Two days of hard climbing and stalking in a breathtaking mountain landscape. Then the first contact: a group of bighorn sheep on the ledge against the rock face, about 450 meters away. With its 35x magnification, the VICTORY® V8 4.8–35x60 from ZEISS brings the target within easy reach and enhances everything in the faint light of the dawn, thanks to its light transmission of 92%. The illuminated dot – the finest of its kind worldwide – covers only about 1 cm of the target at 450 meters. The shot is fired. Safe, clean, professional. The VICTORY V8 4.8–35x60 stood the test once again.

DEER-TEX® Membrane
The Deer-Tex® membrane has several qualities to offer to your garment. 100% windproof, 100% waterproof, 100% breathability. The membrane can be washed at 30 degrees without softner.
Technical specifications:
Water resistance is up to 10.000mm, Water Vapour permeability is up to 10.000g/m²/24h.

DEER-TEX® Membrane
Unsere hochwertige Deer-Tex® Membrane bietet viele Vorteile: 100% winddicht, 100% wasserdicht, 100% atmungsaktiv. Die Membrane ist bei 30 °C und ohne Weichspüler waschbar.
Technische Sprezifikation:
Die Wasserdichtigkeit ist bis zu10.000 mm, die Wasserdampfbeständigkeit ist bis zu 10.000 g/m2/24h.

DEER-TEX® Membran
La membrane Deer-Tex® offre de nombreuses qualités à votre vêtement. 100% coupe-vent, 100% imperméable, 100% de respirabilité. La membrane peut être lavée à 30 degrés sans adoucisseur.
Spécifications techniques :
Son imperméabilité est à 10 000 mm, et sa perméabilité à la vapeur d'eau est à 10 000g/m²/24h.

DEER-TEX® Performance Shell
The Deer-Tex® Performance Shell is a membrane laminated to the shell fabric. It is 100% wind- and waterproof and it is breathable. This membrane is 4-way stretchable and it gives a great feeling and flexibility. Just like the original Deer-Tex® membrane it can be washed at 30 degrees without softner.
Technical specifications:
Water resistance is up to 10.000mm, Water Vaour permeability is up to 10.000g/m²/24h.

DEER-TEX® Performance Shell
Das Deer-Tex® Performance Shell ist eine Membrane, die laminiert wurde, um eine schützende Schicht zu bilden. Sie ist 100% wind- und wasserdicht und zugleich atmungsaktiv. Diese Membrane ist in vier Richtungen streckbar, und gibt Ihnen ein schönes Gefühl sowie Flexibilität. Genau wie die originale Deer-Tex® Membrane ist sie bei 30 °C und ohne Weichspüler waschbar.
Technische Spezifikationen:
Die Wasserdichtheit ist bis zu 10.000mm. Die Wasserdampfbeständigkeit ist bis zu10.000g/m²/24h.

DEER-TEX® Performance Shell
Deer-Tex® Performance Shell est une membrane stratifiée pour former une couche de protection. 100% imperméable à l'eau et coupe-vent, elle permet au corps de respirer. Cette membrane souple, extensible dans quatre directions, offre une sensation très agréable. Tout comme la membrane d'origine Deer-Tex®, il peut être lavé à 30 degrés sans adoucisseur.
Spécifications techniques :
Son imperméabilité est à 10 000 mm et sa perméabilité à la vapeur d'eau est à 10 000g/m²/24h.

DEERHUNTER® Stormliner®

Deerhunter Stormliner® Membrane
Stormliner® is our own liner which stops the wind without reducing the breathability of the material. Stormliner® is 99.99% waterproof, as it is not "seamsealed."

Deerhunter Stormliner® Membrane
Stormliner® ist der Name unseres Innenfutters, das vor Wind schützt, ohne die Atmungaktivität einzuschränken. Stormliner ist zu 99,99% wasserdicht, da nur die Nähte nicht versiegelt werden.

Deerhunter Stormliner® Membrane
Stormliner® est aussi notre propre doublure. Elle protège du vent sans réduire la respirabilité du matériau. Stormliner® est imperméable à 99,99 % car ses coutures ne sont pas « soudées ».

DEER-TEX® Membrane - Five-year-warranty
Five-year warranty on manufacturing defects in the Deer-Tex® membranes. In the event of claims:
Return the product together with this product information label/hangtag and the receipt from your dealer.
NB: The Deer-Tex® membrane warranty only covers manufacturing defects.

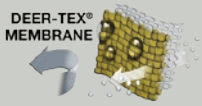

DEER-TEX® Membrane - 5 Jahre Garantie
5 Jahre Garantie auf Herstellungsfehler bei der Deer-Tex® Membranen. Im Falle von Reklamationen:
Schicken Sie das Produkt zusammen mit diesem Etikett/Hängeetikett und der Rechnung von Ihren Händler.
Bitte beachten: Die Garantie der Deer-Tex® Membran umfasst nur Herstellungsfehler.

DEER-TEX® Membrane - Garantie cinq ans
Cinq ans de garantie sur les défauts de fabrication de la membranes Deer-Tex®. En cas de réclamation :
Retourner le produit avec cette étiquette/étiquette volante d'information produit ainsi que la quittance à votre revendeur.
Remarque : La garantie pour la membrane Deer-Tex® couvre uniquement les défauts de fabrication.

Membrane
Treatment

Care and maintenance of Deer-Tex® Membrane
- Dry garment thoroughly before storing
- Do not store in areas of high temperature or humidity

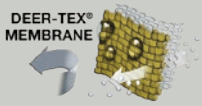

Follow below wash and care instructions carefully:
- Machine washable at 30 degrees
- Do not use softener
- Do not bleach
- Do not iron
- Do not dry clean
- Do not tumble dry
- Line Dry

Pflege der Deer-Tex® Membran
- Kleidungsstücke vor dem Weghängen vollständig trocknen lassen
- Kleidungsstücken nicht unter zu hoher Temperatur oder Luftfeuchtigkeit aufbewahren

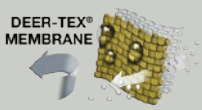

Befolgen Sie die Wasch- und Pflegehinweise:
- Waschmaschinenfest bis 30 Grad
- Keinen Weichspüler verwenden
- Nicht bleichen
- Nicht bügeln
- Nicht chemisch reinigen
- Nicht in den Trockner geben
- Zum Trocknen aufhängen

Entretien et maintenance de la membrane Deer-Tex®
- Bien sécher le vêtement avant de le ranger
- Ne pas entreposer dans des endroits à température élevée ou humides

Suivre attentivement les instructions d'entretien et de lavage ci-dessous :
- Lavable en machine à 30 degrés
- Ne pas utiliser d'adoucissant
- Ne pas utiliser d'agent de blanchiment
- Ne pas repasser
- Ne pas nettoyer à sec
- Ne pas sécher en machine
- Sécher sur un étendage

DEER-TEX® Temp
- A three-layer padding, that collects body heat. The surface material ensures that the heat is encapsulated in the layers and insulates the body.
- Ein dreilagiges Polster, das die Körperwärme hält. Das Obermaterial sorgt dafür, dass die Wärme in den Lagen eingekapselt wird und den Körper isoliert.
- Un rembourrage à trois couches recueille la chaleur du corps. Le matériau de surface retient la chaleur dans les couches et isole le corps.

Water Repellent
- Products impregnated with water repellent treatment are water- and dirt-resistant.
- Produkte mit wasserabweisender Ausrüstung sind wasser- und schmutzabweisend.
- Produits imprégnés hydrofuges résistant à l'eau et à la saleté.

2-way-stretch
- Stretchable in 2 directions.
- In 2 Richtungen dehnbar.
- Extensible dans deux directions.

4-way-stretch
- Stretchable in 4 directions.
- In 4 Richtungen dehnbar.
- Extensible dans quatre directions.

Thornproof
- Extra strong fabric for movement in wilderness.
- Besonders strapazierfähiger Stoff für den härtesten Einsatz.
- Tissu extra résistant pour se déplacer dans la nature sauvage.

YKK
- Registered quality zipper.
- Qualitäts-Reißverschluss.
- Fermeture à glissière de qualité de marque déposée.

Deer-X-Dura reinforcement
- Our own durable and stretchable reinforcement.
- Unsere eigene strapazierfähige und dehnbare Verstärkung.
- Notre propre renfort durable et extensible.

Neoprene
- Neoprene material is stretchable and has very good insulation properties.
- Neopren ist dehnbar und hat sehr gute Isoliereigenschaften.
- Le néoprène est un matériau extensible possédant d'excellentes propriétés d'isolation thermique.

Teflon™
- Products impregnated with Teflon are water- and dirt-resistant. Stains are easy to remove. Teflon is extremely heat-resistant and has a very smooth surface.
- Produkte mit Teflon-Ausrüstung sind wasser- und schmutzabweisend. Flecken lassen sich leicht entfernen. Teflon ist sehr hitzebeständig und hat eine sehr weiche Oberfläche.
- Les produits imprégnés Téflon résistent à l'eau et à la saleté. Les taches sont faciles à enlever. Le Téflon est extrêmement résistant à la chaleur et sa surface est très lisse.

CORDURA®

- Highly wear-resisting, durable reinforcement.
- Hohe Strapazierfähigkeit, langlebige Verstärkung.
- Renfort durable, hautement résistant à l'usure.

HITENA™

- Reinforcement which is used for protective clothing - Durable / Breathable coating / Dirt resistant.
- Verstärkung für Schutzkleidung – Strapazierfähig / Atmungsaktive Beschichtung / Schmutzabweisend.
- Renfort utilisé pour les vêtements de protection - Durable / Revêtement respirant / Résistant à la saleté.

Bamboo

- Bamboo fiber is naturally anti-bacterial, breathable and environmentally friendly. It is very soft and comfortable to wear and furthermore it regulates the body temperature while neutralizing body odor.
- Bambusfaser ist von Natur aus antibakteriell, atmungsaktiv und umweltfreundlich. Sie ist weich und angenehm zu tragen, reguliert die Körpertemperatur und neutralisiert Körpergerüche.
- La fibre de bambou est naturellement antibactérienne, respirante et écologique. Elle est très douce et confortable à porter, de plus, elle régule la température du corps tout en neutralisant les odeurs corporelles.

3M™ Thinsulate™ Platinum Insulation

- 3M™ Thinsulate™ Platinum Insulation features an excellent blend of synthetic hydrophobic fibers, which results in an exceptional warm and lightweight insulation with a better water resistance.
- 3M™ Thinsulate™ Platinum Insulation weist, dank einer Mischung aus synthetischen, wasserabweisenden Fasern, ein geringes Gewicht und beste Dämmeigenschaften auf und ist zudem wasserfest.
- 3M™ Thinsulate™ Platinum, isolant thermique composé d'un excellent mélange de fibres synthétiques hydrophobes offrant une isolation exceptionnelle, chaude et légère, avec une meilleure résistance à l'eau.

3M™ Thinsulate™ Platinum Flex Insulation

- 3M™ Thinsulate™ Platinum Flex is a unique elastomeric insulation that performs under extreme conditions. It stretches up to 40% in all direction and pulls right back again without wrinkling your garments.
- 3M™ Thinsulate™ Platinum Flex ist eine elastomere Isolierung, die unter extremen Bedingungen Höchstleistung bringt. Sie kann um bis zu 40 % in alle Richtungen gedehnt werden und zieht sich gleich wieder zusammen, ohne dass die Bekleidung Falten wirft.
- 3M™ Thinsulate™ Platinum Flex est un isolant élastomère unique, adapté aux conditions extrêmes. Extensible jusqu'à 40% dans tous les sens, il reprend à nouveau sa forme sans froisser vos vêtements.

3M™ Thinsulate™ Insulation

- 3M™ Thinsulate™ Insulation is soft, breathable and able to maintain extra warmth even under damp conditions.
- 3M™ Thinsulate™ Insulation ist weich, atmungsaktiv und hält selbst in feuchter Umgebung warm.
- 3M™ Thinsulate™, isolant thermique doux, respirant, offrant une chaleur supplémentaire, même par temps humide.

COOLMAX®

- COOLMAX® fabric is the performance fabric that includes an effective fiber-based moisture management system. The system can move perspiration away from the body, and through the fabric, where it can evaporate quickly, allowing the wearer to feel cooler and more comfortable.
- COOLMAX® ist ein Hochleistungsgewebe mit effektivem faserbasiertem Feuchtigkeitsmanagement system. Das System transportiert Schweiß vom Körper durch das Gewebe nach außen, wo er schnell verdunsten kann – für ein angenehm kühles und komfortables Körpergefühl.
- Le tissu COOLMAX® est un tissu performant dont les propriétés des fibres permettent de maîtriser l'humidité. La transpiration est ainsi éliminée du corps, à travers le tissu, où elle peut s'évaporer rapidement, offrant à l'utilisateur une sensation plus fraiche et plus confortable.

RETHINKING IMPACT

A light bullet surpassing a heavy one? ECOSTRIKE™ makes the impossible possible. To make the bullet lighter and prevent it from fragmenting, the lead has been replaced by copper and nickel. With ECOSTRIKE™ we meet a new hunting era, where the sense of being one with nature has reached a higher level. The bullet and its characteristics, takes into account of the rifle, the game, the environment and the meat.

ECOSTRIKE™'s ambition is to always give a positive impact, and to make it a rewarding hunting experience.

ECOSTRIKE™ is developed to give unequalled accuracy, in all circumstances. Its controlled expansion and a very high retained weight, assures consistent behavior and deep penetration, at short and long distances. Accuracy is optimized through unique design and precise production methods. The bullet has patented nickel plating, which minimizes barrel fouling.

MORE CALIBERS SOON TO COME!

INSTANT STOP

One shot and the hunt is over. With TIPSTRIKE™ you keep all the excitement, but avoid all unnecessary drama. The effect is instantaneous, just like the reward and tranquility is restored. The constant pursuit of being a responsible hunter has been achieved.

TIPSTRIKE™ removes unnecessary risks, with an instant stop, to everyone's relief. This is why TIPSTRIKE™ will become the recommended and preferred choice of all responsible hunters and experts.

TIPSTRIKE™ is developed for stopping power, combined with a penetration deep enough to reach the vital organs of the game. The polymer tip assures the expansion and gives a devastating shock effect, due to the construction of the bullet jacket. To maintain a high retention weight, the jacket is reinforced with a mechanical lock thus making TIPSTRIKE™ an outstanding bullet for driven hunts, and other forms of hunting where an immediate stop is crucial.

STRIKE™

PERFECT ENDING

THE MEANING OF

PERFECT ENDING

Know your game, know your terrain. STRIKE will do the rest.

In a matter of life or death, everything must be on target - expectations and outcome alike. Based on this philosophy, our new ammunition series has been named **STRIKE**. It's a complete family in which each member contributes in some specific way to a safer hunt and a PERFECT ENDING. It is time to meet the first two members.

TIPSTRIKE™ lets you keep all the excitement, but avoid all unnecessary drama. One shot and the hunt is over. It will make bigger animals like deer and wildboar drop with an instant stop.

ECOSTRIKE™ makes the impossible possible. It is a lighter bullet that outweighs a heavier. It is a lead free, all game bullet and its purpose is to always give a positive impact.

ENGINEERED TO PERFECTION

DEDICATED TO PRECISION

Optical brighteners in detergents

Does your hunting wear or the detergent you use contain optical brighteners? If so, your camouflage is useless!

Optical brighteners have the unfortunate side effect that they can be seen very clearly by animals. Optical brighteners contain UV enhancers, which shine when seen by an animal. You might be wearing the best camouflage hunting gear, but if it contains or has been washed with optical brighteners, you will be highly visible to your quarry. Deerhunter therefore recommends that you only use detergents which do not contain optical brighteners.

Most animals do not register colours in the same way as humans. They see contrasts! Consequently, the fact that the clothing is orange will not affect the hunting but on the other hand, it helps you and your fellow hunters to see one another clearly.

How animals see you

How your fellow hunters see you

Most animals do not register colours in the same way as humans.

They see contrasts!

Consequently, the fact that the clothing is orange will not affect the hunting but on the other hand, it helps you and your fellow hunters to see one another clearly.

Deerhunter Equipt® Flaming Blaze - Color code 90
Equipt® Flaming Blaze pixelation has been developed with a brand new technology in camouflage and it is the only product on the market where you find both functionality and safety in one product!
The contrast in the pixelation is changing like a chameleon and makes it difficult for the eye of the game to judge distance. This increases the hunters chance of getting closer to the prey.

Bei Equipt® Flaming Blaze handelt es sich um ein mit neuester Technologie hergestelltes Pixelmuster. Sowohl Funktion als auch Sicherheit stehen bei diesem Produkt im Mittelpunkt – eine Seltenheit auf dem Markt.
Die Kontraste des Pixelmusters ändern sich wie das Aussehen eines Chamäleons, sodass das Wild die Entfernung kaum abschätzen und sich der Jäger nah heranpirschen kann.

Equipt® Flaming Blaze aux motifs pixels est développé selon une toute nouvelle technologie de camouflage, le seul produit sur le marché pensé à la fois en termes de fonction et de sécurité !
Les contrastes des pixels se modifient, changeant comme un caméléon, et rendent difficile l'estimation de la distance par l'œil du gibier. Les chances du chasseur de se rapprocher de sa proie sont ainsi plus grandes.

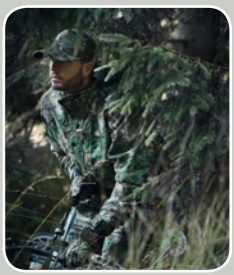

Deerhunter Innovation GH Blaze - Color code 77
Deerhunter GH Innovation blaze is a mix of GH & Innovation by Deerhunter. The high-visible orange and the deep contrast means you won't be missed by fellow hunters. Safety for all situations.

Deerhunter GH Innovation Blaze ist eine Kombination aus GH und Innovation von Deerhunter. Das gut sichtbare Orange und der tiefe Kontrast bedeuten, dass Sie von anderen Jägern nicht übersehen werden können. Sicherheit in jeder Situation.

Deerhunter GH Innovation blase est une composition inspirée des gammes GH & Innovation de Deerhunter. Le coloris orange vif et le contraste profond ne passeront pas inaperçus auprès des autres chasseurs. Sécurité en toutes situations.

Realtree Xtra Green - Color code 48
Use it from early fall bowhunting, muzzle loading and gun seasons until the leaves change, and then again from mid to late spring. It's also perfect any time the season or situation calls for green camo.

Geeignet ab dem frühen Herbst für die Jagd mit Bogen, Vorderlader und in der übrigen Jagdzeit, bis sich das Laub verfärbt, dann wieder vom frühen bis zum späten Frühling. Eignet sich immer dann, wenn grünes Tarnmuster erforderlich ist.

Portez-le à partir de l'automne, pour la chasse à l'arc, les saisons des armes à feu et la chasse au fusil rechargeable par la bouche et jusqu'à ce que les feuillus changent, et à nouveau du milieu à la fin du printemps. Il est parfaitement adapté à toute la saison et à toutes les situations où le camouflage vert s'impose.

Advantage MAX-4 - Color code 30
Realtree Max-4 wetlands camo is one of the most successful duck hunting camo patterns ever designed. The pattern offers maximum effectiveness as waterfowl camo in any open terrain - without geographical limitations.

Das Tarnmuster Realtree Max-4 für Feuchtgebiete ist eines der erfolgreichsten Tarnmuster, das jemals für die Entenjagd hergestellt wurde. Das Muster bietet maximale Tarnung vor Wasservögeln in offenem Gelände, und das überall, ohne geografische Einschränkungen.

Realtree Max-4, le camouflage pour les zones humides, est l'un des motifs les plus réussis pour la chasse au canard. Le motif offre un maximum d'efficacité comme camouflage oiseau aquatique, sur n'importe quel terrain à découvert, sans limites géographiques.

MAX-5 - Color code 95
MAX-5 pattern elements are strategically placed to create super-realistic tone, contrast and shadow. Viewed up close, MAX-5 offers incredible detail. At a distance, the pattern obliterates the human outline completely. The result? Maximum effectiveness for your waterfowl success.

Alle Muster des MAX-5-Tarnstoffs sind so verteilt, dass sie sehr naturgetreu und echt aussehen. Aus der Nähe betrachtet ist MAX-5 sehr detailgetreu und aus der Ferne sind menschliche Umrisse kaum auszumachen. Das Ergebnis: Beste Tarnung bei der Jagd auf Wasservögel.

Bien sûr, tous les éléments des motifs MAX-5 sont stratégiquement placés pour créer des tons, des contrastes et des ombres très réalistes. Vu de près, MAX-5 offre des détails incroyables. De loin, le motif absorbe complètement les contours de la forme humaine. Le résultat ? Un maximum d'efficacité et de réussite avec le petit gibier d'eau.

Deerhunter IN-EQ - Color code 80
Experience and science are the tools behind IN-EQ camouflage clothing – which has thus been created by hunters for hunters. In the work to develop IN-EQ camouflage colours, particular attention has been paid to the contrasts and the importance of the cool colours to make sure they function perfectly in both lowland and highland settings.

IN-EQ ist daher das Ergebnis von Beobachtungen während der Jagd, langjährigen Erfahrungen und wissenschaftlichen Erkenntnissen. Oder kurz: Ein Tarnmuster von Jägern für Jäger. Bei IN-EQ wurde ganz besonders auf die Kontraste und die kühlen Farben Wert gelegt, sodass das Tarnmuster für Tief- und Hochland geeignet ist.

L'expérience et les connaissances sont à l'origine du camouflage IN-EQ conçu par des chasseurs pour des chasseurs. Lors de la création du camouflage IN-EQ, une attention particulière a été accordée aux contrastes et à la signification des couleurs froides pour offrir une adaptation parfaite aux terrains de plaine et aux reliefs montagneux.

Deerhunter Innovation GH - Color code 50
GH Innovation camouflage is versatile, light, open and designed to suit the whole of Europe. Blend in with the spring, summer and early autumn conditions found in the countryside of Europe.

GH Innovation ist ein vielseitiges, leichtes, offenes Tarnmuster, das sich für ganz Europa eignet. Das Tarnmuster eignet sich für den Einsatz in Frühling, Sommer und Frühherbst.

Le camouflage GH Innovation est polyvalent, léger, ouvert et conçu pour l'Europe entière. Il se fond dans l'environnement de la campagne en Europe, que ce soit au printemps, en été ou en début d'automne.

Deerhunter Equipt - Color code 60
Equipt® pixelation, changes like a chameleon and blends in with nature. It adapts to the shapes and colors in nature and becomes a part of it. Equipt® adapts to nature with its multi grey/brown and green shades - whether it is on the open plain or in the forest areas.

Die Pixeltarnung Equipt® ändert sich wie ein Chamäleon und passt sich der Natur an. Sie gleicht sich den Formen und Farben der Natur optisch an und wird quasi ein Teil von ihr. Mit ihren grau-braunen und grünen Schattierungen bietet Equipt® sowohl im offenen Gelände als auch im Wald eine gute Tarnung.

La pixellisation Equipt®, telle un caméléon, varie et se confond avec la nature. Elle s'adapte aux formes et aux couleurs rencontrées dans la nature et en devient partie intégrante. Equipt® s'adapte à la nature avec ses multiples nuances de gris, de brun et de vert, que ce soit en terrain découvert ou dans des zones forestières.

Deerhunter Innovation - Color code 40
Deerhunter Innovation has been created from a mixture of ground hunting scenarios, but also bird level scenarios. The 3D-effect is made more prominent via different earth coloured patterns in order to achieve the optimal camouflage.

Deerhunter Innovation wurde auf der Grundlage von Jagdszenarien am Boden sowie über der Erde entwickelt. Verschiedene erdfarbene Muster verstärken den 3D-Effekt und gewährleisten eine optimale Tarnung.

Innovation de Deerhunter a été créé à partir d'un mélange de scénarios de chasse au sol, mais aussi de scénarios de chasse aux oiseaux. L'effet 3D est plus important grâce à différents motifs de terre colorés, ceci pour réaliser un camouflage optimal.

SPORTING RIFLE
Save the Rhino

DEERHUNTER SUPPORTS "SAVE THE RHINO AUCTION"

Since 2010 Sporting Rifle has raised more than £40,000 for the global charity Save the Rhino International, through an annual auction of sporting lots including hunts, taxidermy, photography courses, clothing and equipment.

All the money raised goes to benefit anti-poaching units in a select group of African rhino reserves, including uMkhuze in South Africa, Big Game Parks in Swaziland, and Borana in Kenya. No admin or handling fees are deducted and 100 percent of the money raised is put to use on the ground.

The poaching situation in Africa grows ever more dire, with more than 1,000 rhino killed illegally in South Africa in 2014. When deaths overtake births, this signals the countdown to extinction for the species.

The only way of counteracting this devastation is to fund the fight against poaching. APUs are often critically underfunded – Sporting Rifle's Save The Rhino initiative has provided them with crucial equipment such as boots, hydration packs and radios, meaning they can stay safe and comfortable, and spend more time on patrol.

Check out these amazing lots and help save Rhinos:

Quick Guide

A) Inner layer (Underwear)

	Very active:	Stationary:
Cold:	Synthetics / Merino wool	Merino wool
Temperate:	Synthetics	Synthetics / Cotton

- **Wool:** Warmer wet or dry • Wicks moisture better than cotton • Takes longer to dry than a synthetic fabric
- **Synthetic fabrics:** Excellent moisture-wicking properties • Dry fast • More durable than wool
- **Cotton:** Comfortable to wear • Absorbs moisture rather than wicking it • Warms best when dry

B) Intermediate layer (e.g. fleece, knitwear, shirt)

Cold:	Fleece / knitwear with membrane are best
Temperate:	Fleece / knitwear / shirt are best

C) Outer shell

Cold:	With membrane - Waterproof / Windproof / Breathable + insulation
Temperate:	With membrane - Waterproof / Windproof / Breathable

- Depending on temperature, the inner layer and/or the outer shell can be added/removed.
- To maintain optimum breathability of the outer shell with membrane, we recommend that you wear an intermediate layer without a membrane.

Infos auf einen Blick

A) Innere Schicht (Unterwäsche)

	Starke körperliche Betätigung:	Geringe körperliche Betätigung:
Kalt:	Kunstfasern / Merinowolle	Merinowolle
Temperiert:	Kunstfasern	Mischgewebe (Kunstfasern/Baumwolle)

- **Wolle:** Wärmt sowohl in trockenem, als auch in feuchtem Zustand • Leitet Schweiß besser ab als Baumwolle • Trocknet länger als Kunstfasern
- **Kunstfasern:** Hervorragende Schweißdurchlässigkeit • Schnell trocknend • Strapazierfähiger als Wolle
- **Baumwolle:** Angenehm auf der Haut • Saugt den Schweiß auf, transportiert ihn aber nicht weiter • Wärmt am besten in trockenem Zustand

B) Zwischenschicht (Fleece, Strick, Hemd usw.)

Kalt:	Bei kaltem Wetter ist Fleece / Strick mit Membrane vorzuziehen.
Temperiert:	Hier ist Fleece / Strick / Hemd o. Ä. vorzuziehen.

C) Äußere Schicht (Wetterschutzkleidung)

Kalt:	Mit Membrane - Winddicht / Wasserdicht / Atmungsaktiv + Isolierung
Temperiert:	Mit Membrane - Winddicht / Wasserdicht / Atmungsaktiv

- Je nach Temperaturverhältnissen kann die innere und/oder äußere Lage ergänzt werden oder entfallen.
- Zur Erhaltung der Atmungsfähigkeit einer Schutzschicht mit Membrane empfiehlt sich eine Zwischenlage ohne Membrane.

Guide rapide

A) Vêtement intérieur (sous-vêtement)

	Activité importante :	Faible activité :
Froid :	Tissu synthétique / Laine mérinos	Laine mérinos
Tempéré :	Tissu synthétique	Tissu synthétique/Coton

- **Laine :** Réchauffe à la fois en étant sèche ou mouillée • Meilleure que le coton pour transférer la sueur • Prend plus de temps pour sécher qu'une matière synthétique
- **Matière synthétique :** Excellentes propriétés de transfert de la sueur • Sèche rapidement • Plus résistante à l'usure que la laine
- **Coton :** Agréable à porter • Absorbe la sueur au lieu de la transférer. • Réchauffe mieux à l'état sec

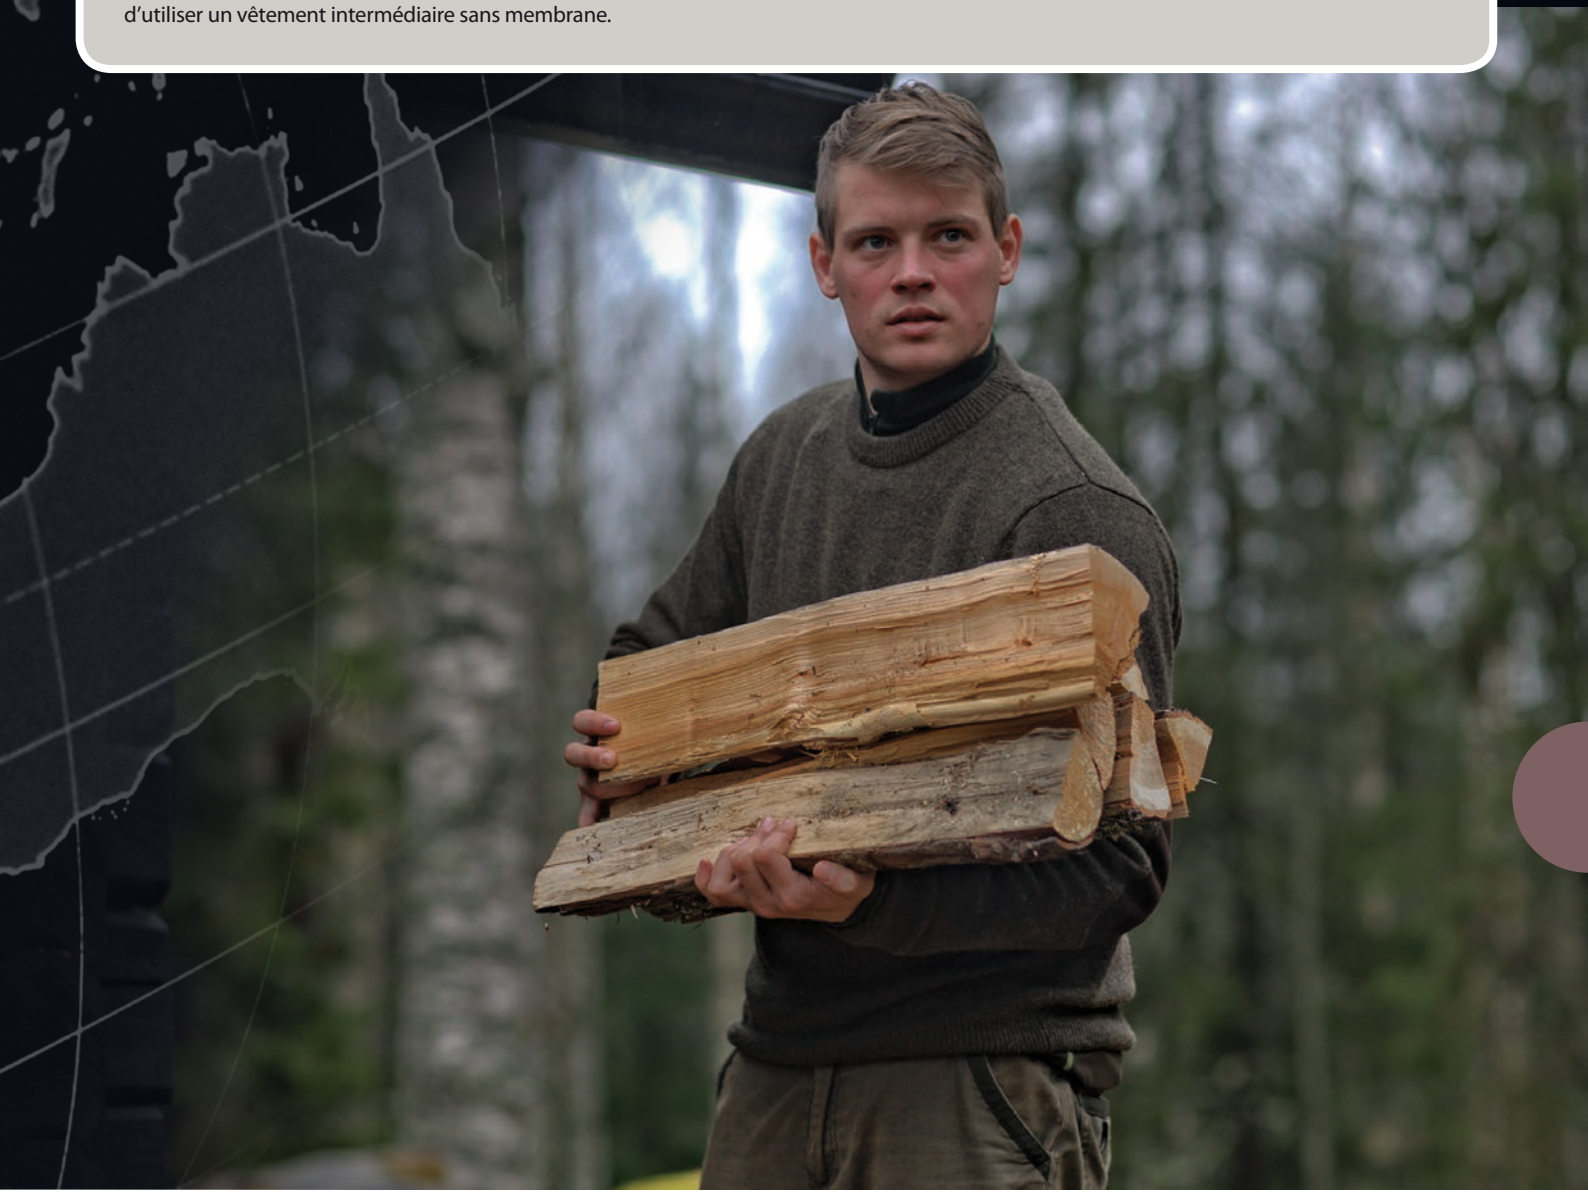

B) Vêtement intermédiaire (par ex. molleton, tricot, chemise)

Froid :	De préférence un molleton ou un tricot avec membrane
Tempéré :	De préférence un molleton, un tricot, une chemise ou assimilés0

C) Vêtement de dessus

Froid :	Avec membrane, imperméable/coupe-vent/permet au corps de respirer + isulation
Tempéré :	Avec membrane, imperméable/coupe-vent/permet au corps de respirer

- Selon la température, le vêtement intérieur et le vêtement de dessus peuvent être ajoutés ou retirés.
- Pour permettre au corps de respirer de manière optimale avec un vêtement de dessus avec membrane, il est recommandé d'utiliser un vêtement intermédiaire sans membrane.

SIZE / GRÖSSE / TAILLE

This is how to measure yourself correctly. Get someone to help you so you can measure more exactly. Keep your shirt and trousers on and stand in a relaxed position. Place the measuring tape around the body. The tape should be reasonably taught, but not too tight. If you allow enough space to slide a finger under the tape, you will get the correct measurements.

So messen Sie richtig: Bitten Sie jemanden Ihnen zu helfen, damit die Maße genau abgenommen werden. Behalten Sie Hemd und Hose an und stehen Sie entspannt. Lassen Sie die Arme locker hängen. Führen Sie das Maßband rund um den Körper. Es sollte dicht am Körper anliegen, aber nicht stramm gezogen werden. Es darf nur einen Finger breit Platz unter dem Maßband sein, dann finden Sie die richtige Größe.

Pour mesurer correctement votre taille, faites-vous aider par quelqu'un. Vos mesures seront plus précises. Gardez votre chemise et vos pantalons et tenez-vous debout, en position décontractée. Baissez les bras. Passez le mètre-ruban autour de votre corps. Veillez à ce qu'il entoure bien le corps, sans serrer. Passez un doigt sous le ruban pour obtenir des mesures correctes.

Why do we hunt?

Every hunt is a story that unfolds around you. From the very first step your senses rise, you start to register every sound, smell and colour and no matter what path you choose through the woods, you are the main character, the hunter.

Somewhere out there, there's an animal, you feel close to it, you feel challenged. You fall into the rhythm of the game, and follow its instincts and as you enter the heart of the hunt, your own breath becomes all that you can hear.

There will be a fight! The story will peak and within this tale, you feel touched by something epic.

That's why we hunt.
