Comfort fit® shoe concept

-30° Pleasant up to the specified degrees below zero. These are guideline values, naturally, e. g. movement intensity, circulation, physical constitution and appropriate socks play an important role.

We all dream of a sunny winter landscape with deep snow!

Winter! Every year, we always hope for a cold, snowy and sunny winter that starts early and lasts long. Some years, our hopes become reality: so, it was at the end of 2017, when winter made its entrance in November. We wouldn't have had it any other way, but there are also other years when winter comes „too late“.

Winter sports experts are advising mountain resorts to offer a range of activities for guests so when there is limited snow there is still a reason to go the mountains. Flexibility is the key word today.

We have always had our own response to this need for flexibility. Our main collection is available for one year, thus providing you with security and flexibility when it comes to planning.

In this winter catalogue, we offer useful additions to the main collection, giving you the opportunity to add new touches to your shop. In addition to numerous innovations, our winter collection also includes familiar and proven styles.

This combination also provides security and flexibility for your planning.

We would particularly like to highlight our Comfort fit range, which is becoming ever more important. It offers your customers flexibility in the fit, and increases your ability to provide shoe-fitting advice. This important subject is expanded upon in new styles in our four-season and winter ranges.

All of our styles reflect our experience and passion derived from over 300 years of shoe-making tradition. This results in high-quality, durable and reliable boots and shoes.

We wish you success for the new season and look forward to continuing our successful and collaborative partnership.

Your Meindl family

Boots for every Season

These models are not only for winter use. From waterproof GORE-TEX® lined boots through our “365 day” line to models lined with lambskin, here you'll find the ideal model for every occasion. A number of technological features have been incorporated into these boots, making them extremely versatile.

Sporty and elegant throughout Winter

Be fashionable and also warm and dry throughout winter. The times are long gone when fashion had nothing to do with function and practicality. Meindl provides numerous styles, particularly for women, that meet every requirement in snowy, icy and cold weather. These high-quality boots are sporty and fashionable at the same time and look good with all types of clothing.

More Comfort – in every Season

Huge demands are made of our feet every day. This is why it is all the more important to rely on well-fitting styles when selecting boots. The special Comfort fit® last shape allows more space in the toes and ball of the foot but it still has a secure heel fit. The broader foot and additional space provide optimal comfort. This is supported by the elaborately constructed Comfort fit® cork footbed. What makes it special is that the cork footbed is anatomically shaped. The cover can absorb a great deal of moisture, and the footbed has continuous cushioning and an integ-rated shock-absorber in the heel.

Comfortfit®

Boot concept

In comparison to a trekking last, our Comfort fit® last has more space at the front of the foot with a firm grip on the heel. You stand on a wider base. The defined rocker aides walking.

More space in the forefoot

- 1 More room for toes and more capacity.
- 2 More ball width and straight adjustment of the big toe.
- 3 Wider stance due to wider sole base.
- 4 Perfect fit due to the snug-fitting heel.

Winter Boots - The Classics

Out of principle, we have always placed great emphasis on master craftsmanship. Only a few shoemakers are still proficient in the art of double-stitched production. Made from the finest materials, our classic boots unite style with tradition - and therefore remain trusted companions for years to come!

Children's shoe with sewn name plate
the outer- shoe inner boot

Cosy and warm Feet in all Types of Winter Weather

Our Canadian boots can be worn for a wide range of activities. They are as suitable for walking in snowshoes and many other winter challenges. The way the boots are constructed makes them very stable. The Meindl Ultra Grip sole with its concave cleats provides the best grip on smooth surfaces. The pyramidal construction of the cleats, distributed across the entire surface, means a perfect grip in the snow.

A perfect All-rounder in different Widths

The Trail Activity styles are ideal for sporty activities. All styles are equipped with well-cushioned and grippy soles and suit a wide range of leisure activities. The range has been expanded with different fit options. The colourful new Caribe (Lady) GTX® model is available in either normal or narrow fit. The emphasis is placed on the technical refinements in the construction of the upper and the sole. The grippy Meindl Multigriff® profile and the well cushioned EVA midsole make the shoes even more impressive.

Best-Fit Footbed for Children

that children's feet have enough room.

Ideally, a child's boot with a perfect fit will be around 12mm longer than the child's foot in the toe area. Our removable Best-Fit footbed allows a simple check to be made to assess whether the boots fits correctly. Children's feet grow up to 1.8 mm per month.

Wellness for feet

If a shoe is to be worn all day, then the fit is crucial. Our styles are characterised by our Comfort fit® last concept combined with a special Comfort fit® footbed. In comparison to a trekking last, our Comfort fit® last has more space at the front of the foot, with the big toe in straight alignment, and a firm grip on the heel. The wearer has a broad base for standing whilst the distinctive curved sole aides the walking motion.
