More Comfort – in every Season

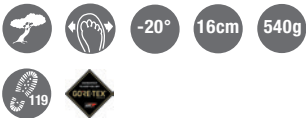

Huge demands are made of our feet every day. This is why it is all the more important to rely on well-fitting styles when selecting boots. The special Comfort fit® last shape allows more space in the toes and ball of the foot but it still has a secure heel fit. The broader foot and additional space provide optimal comfort. This is supported by the elaborately constructed Comfort fit® cork footbed. What makes it special is that the cork footbed is anatomi-cally shaped. The cover can absorb a great deal of moisture, and the footbed has continuous cushioning and an integrated shock-absorber in the heel.
