Real leather

Dear Customer,

Our footwear has been combining tradition, passion, quality and innovation for over 300 years. Together with our long-standing employees, some of who are the second generation to work at Meindl, we constantly develop new ideas. Craftsmanship has always been our top priority and our footwear is technically modern as well as highly practical - for both summer and winter.

Over the past months, we have been working intensively on our new winter models – and we are proud to be able to present them to you here with many new innovations.

Among other things, we have extended our range of “year round” models and added some new features. These “year round” boots, which will certainly impress your customers, are perhaps an answer to last season. The

footbeds in this waterproof model range can be quickly and conveniently exchanged, allowing them to be worn all year round.

We have revolutionised the market with the Meindl Identity® models, which permit the wearer to trace the origin of the leather used for the upper

shoe. Here too, we have developed some new models and, above all, succeeded in combining traditional manufacturing with a fashionable look. Only the Meindl Identity® allows the customer to find out where the upper leather is from.

We attach a great deal of importance to keeping our customers' feet cosy and warm during the colder months of the year. A large number of our winter boots are lined with real, 12 millimetre thick sheepskin, meaning that they feel completely comfortable even in winter. And by using GORE-TEX®, our winter boots are 100% waterproof. Roll on the cold months!

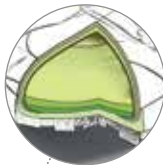

We hope you'll find a good “mix” between the existing models and the new Meindl designs for your customers.

We would like to thank you for your confidence in us and wish you a successful new season.

Yours,
Family Meindl

Boots for every season

These models are not only for winter use. A number of technological features have been incorporated into these boots, making them extremely versatile.

Perfect walking comfort thanks to the lasted style

Identity – Leather with a certificate of origin

A line of footwear that moves with the spirit of the times! With the Meindl Identity®, we are the first shoe company to create a regional product for which we can provide a detailed certificate of origin for the leather used for the uppers. The leather is produced using cutting-edge technology and with ecological considerations. Each individual shoe contains a great deal of traditional shoemaking craft. This applies particularly to the double-stitched construction. So it is this combination of traditional craft, regional raw materials and modern leather production that makes the Meindl Identity® line so unique.

Shoes with passion

These models stand out because of their casual, fashionable style. This range of shoes includes the sneaker, with its super-soft lining, right up to the warm and waterproof winter boot. All the models in this range are made on a very flexible sole according to a special technique. The leather footbed, constructed on latex foam, makes them particularly special.

Feel-good boots

We've also developed many new models for our Comfort fit® range, especially for our female wearers this year. The Comfort fit® last is the key feature of this product range. What makes these boots really stand out is the wider forefoot, offering comfort and space to the toe and ball areas of the foot while straightening the big toes. Our Comfort-fit® cork footbed gives these boots a special touch, its technically sophisticated design offers a perfect fit, exceptional comfort and excellent breathability.

Comfortfit® boot concept

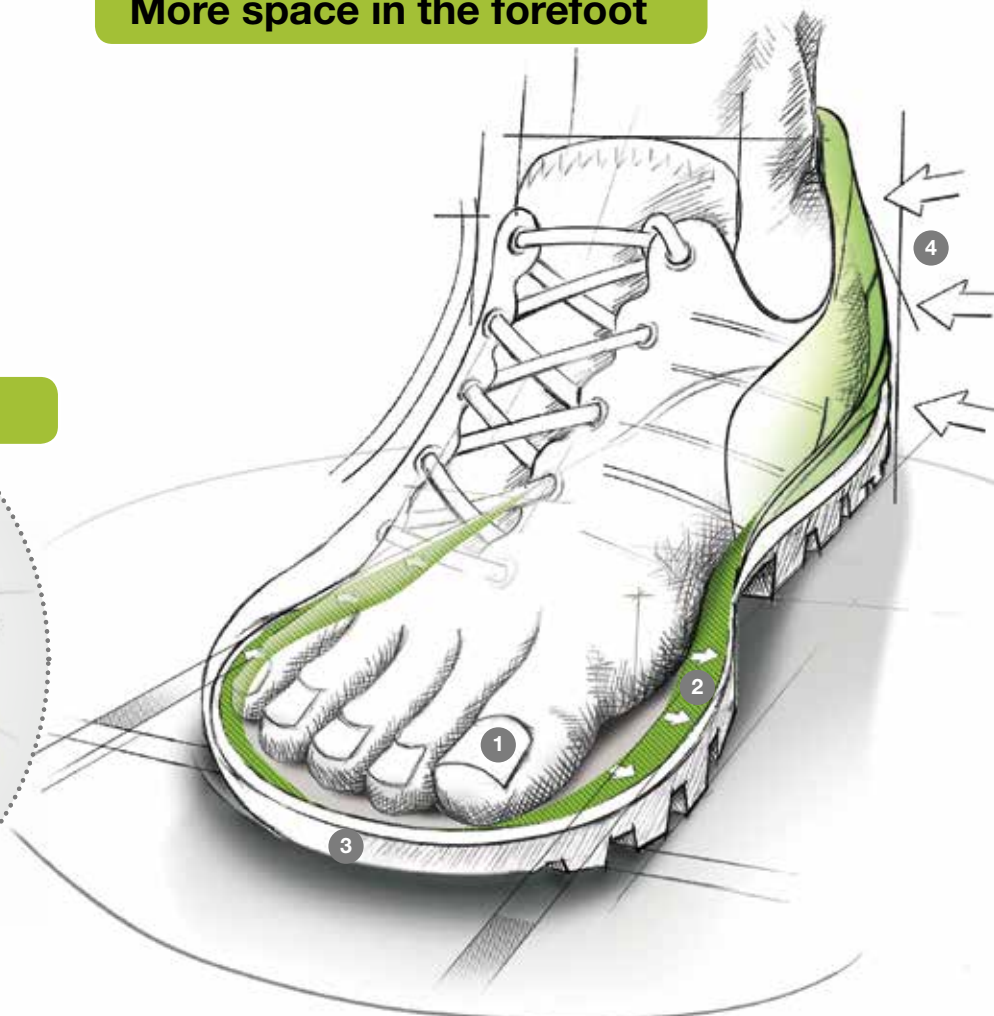

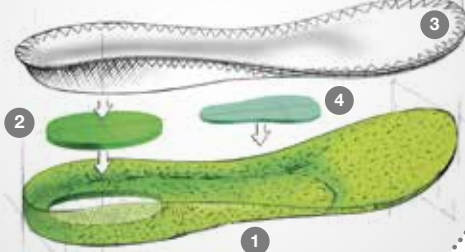

In comparison to a trekking last, our Comfort fit® last has more space at the front of the foot with a firm grip on the heel. You stand on a wider base. The defined rocker aides walking.

- 1 More room for toes and more capacity.
- 2 More ball width and straight adjustment of the big toe.
- 3 Wider stance due to wider sole base.
- 4 Perfect fit due to the snug-fitting heel.

More space in the forefoot

+ High quality cork insole

- 1 Cork insole with
- 2 Poron® shock absorber
- 3 Cambrelle and fleece covering.
- 4 Plus integrated pad.

Advantages of natural cork - Purely natural

- Lightness:** As 89% of its structure is gaseous, the density of cork is extremely low (between 480 and 520 kg/m³).
- Elasticity:** The unique structure of the cells makes the footbed so pleasant to wear – both standing and walking.
- Moisture control:** Cork adjusts to the temperature and ensures a pleasant climate in the shoe.
- Heat:** Cork adjusts to the temperature and ensures a pleasant climate in the shoe.
- Ecologically sustainable:** Thanks to the sensible economic use of cork oak, the preservation of cork forests and hence the ecological balance are ensured.

Comfort-fit® Cork footbed

- 1 Cork insole with
- 2 Poron® shock absorber
- 3 Cambrelle and fleece covering.
- 4 Plus integrated pad.

Bring on the adventure!

Make a snowman, have a snowball fight, go sledging – even in winter girls and boys prefer to be outside, so it's important that they're fitted with the right footwear. Your offspring will have warm feet in Meindl winter boots. And as our sturdy models are both colourful and equipped with a slip-proof rubber sole that grips on every terrain, little ones will stay safe when on the move. So bring on the winter adventure!

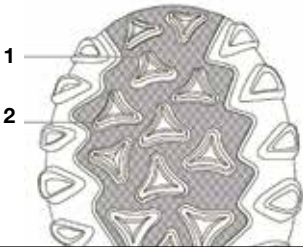

Winter Storm Junior GTX®

With the high-tech functionality of

Meinl Ultra Grip sole

- 1 Rubber profile sole with claws throughout. The entire surface of the sole grips the snow.
- 2 Concave cleats offer better grip on smooth surfaces in all directions. They are flexible and adapt perfectly to the terrain.

There are no limits with these boots

These boots are real all-rounders. Versatile and innovative, they can be used in a wide variety of ways. They are suitable for walking in snow shoes and for the challenges of winter. The well-insulated interior lining guarantees warm feet. The Meindl ultra-grip sole with its concave cleats provides the best grip on slippery ground. The pyramid construction of the cleats across the entire surface of the sole grips snow perfectly.

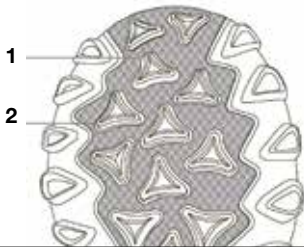

removable inner shoe

- The removable thermal fur-fabric inner boot can be used as a slipper boot, thanks to the integrated rubber sole
- Reinforced stiffener
- The compact rubber sole makes insertion of the inner boot easy

Meindl Ultra Grip sole

- 1 Rubber profile sole with claws throughout. The entire surface of the sole grips the snow.
- 2 Concave cleats offer better grip on smooth surfaces in all directions. They are flexible and adapt perfectly to the terrain.
