# MALLARD

## HIGH-END HUNTING SERIES FOR WATERFOWLING

.....

The new Mallard series is an extremely functional hunting collection that has been specially developed for waterfowling who are unwilling to compromise. This series is packed with clever features such as magnetic closing pockets, front pockets with a metal clip opening system and much more. The entire Mallard series is available in Realtree's Max 5 camouflage, which has been developed specifically for hunting in and around reeds.

The Mallard jacket and trousers have a breathable Deer-Tex® Performance Shell membrane that makes the clothing 100% waterproof. In addition, the entire series is produced in a flexible and comfortable 4-way stretch fabric that ensures great comfort and high freedom of movement.

- 1 Membrane, with a 5-year warranty
- 2 Magnetic closing pockets
- 3 Elastic strap for duck call
- 4 2 lower front pockets with metal clip opening
- 5 100% wind and waterproof

# MUFLON

## TOP QUALITY HUNTING APPAREL

The Muflon series incorporates 3M™ Thin-sulate™ insulation to keep you warm and a Deer-Tex® membrane, with a 5-year warranty to ensure that you keep water and wind outside while the body can breathe.

Muflon Light is the lightweight addition to the Muflon and is designed for active hunting in temperate climate. Both the Muflon and the Muflon Light comes in a 4-way stretchable fabric which provides good comfort and great freedom of movement.

Furthermore, the Muflon Light offers a soft and silent contrast fabric, in the side and under the arms, to minimize noise. Muflon Light contains a Deer-Tex® Performance Shell, and is therefore windproof, waterproof and breathable. This membrane also comes with a 5-year warranty.

# REIMS / ANTI-INSECT / NORTHWARD

## FUNCTIONAL HUNTING AND OUTDOOR APPAREL

The Reims series is extremely comfortable and offers a great deal of freedom of movement. The padded shoulder sections reduce the impact from the recoil, and the many pockets provide lots of storage space so that all your items can be accessed easily.

The new Anti-insect trousers will keep the bugs at bay while you explore the surroundings on your outdoor excursions. The Anti-insect treatment will keep you protected while the elasticated waist, pre-shaped knees, reinforced seat and adjustable ankle with strap and Velcro offer added comfort and extra freedom of movement.

The Northward series consists of a pair of functional outdoor trousers and shorts with a modern fit. The hard-wearing 4-way stretchable fabric and high degree of breathability, will ensure a comfortable outdoor experience

# RUSKY

## EXTREMELY SILENT HUNTING APPAREL

Deerhunter's improved Rusky series Silent is the perfect autumn and winter wear. Due to the unique fabric treatment, it is extremely silent, enabling you to move in close to your quarry.

The Rusky Silent long jacket and Rusky Silent bib trousers are perfect for adventures in the freezing cold. The jacket and trousers have an extra thick lining and is both wind and waterproof, providing good protection against the cold and wind. The Deer-Tex® membrane ensures good breathability.

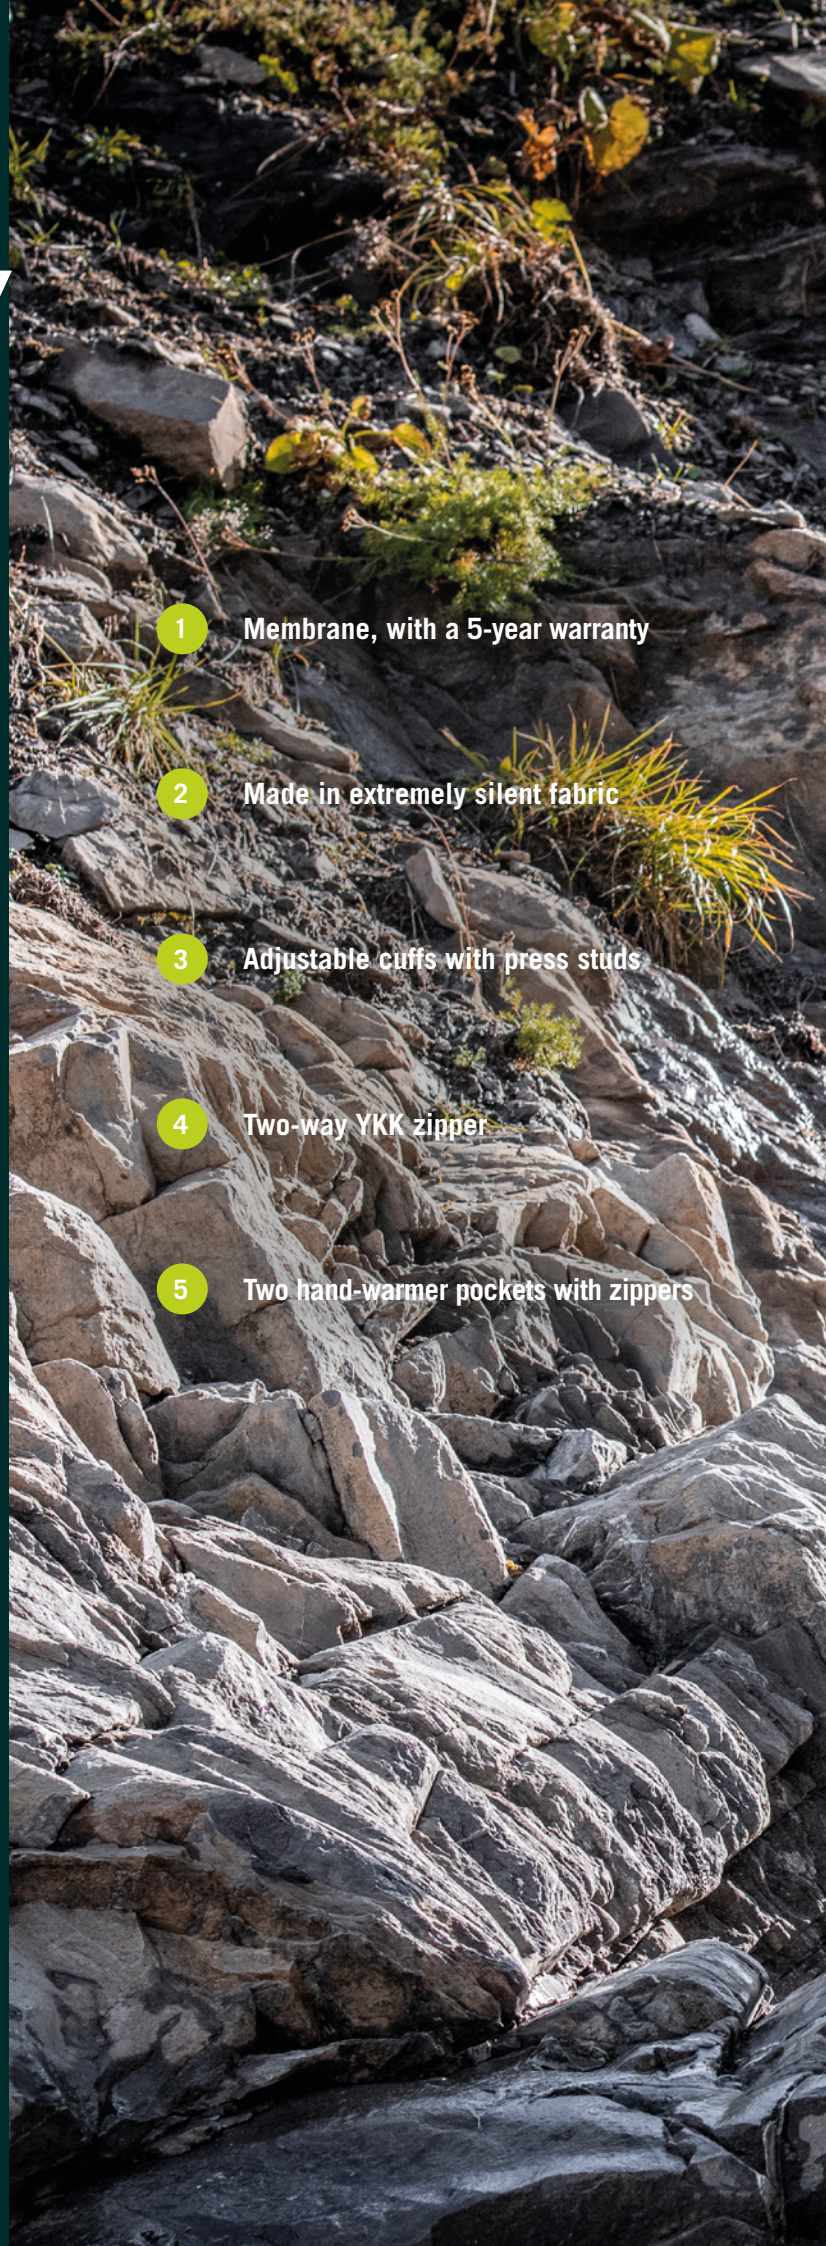

The short Rusky Silent jacket and matching trousers are suitable for autumn hunting when the temperatures are beginning to fall below freezing. The entire Rusky series is equipped with many outstanding details that ensure a high level of comfort and functionality.

With Rusky Silent, we can almost certainly guarantee a fantastic hunting experience.

# DEER

## A WIDE SELECTION OF HUNTING APPEAL

When winter starts to bite, it is important to be 100% certain that your hunting gear can keep you dry and warm. The Deer winter jacket and trousers comes with a Deer-Tex® membrane, and 3M™ Thinsulate™ insulation to help maintain a comfortable body temperature.

The waterproof and breathable Deer jacket is perfect for the start of hunting in Autumn. The waterproof pockets keep your phone and other electronics safe. The Deer trousers are a perfect match for those damp, chilly autumn days. This set comes with a Deer-Tex® membrane and a water-repellent treatment, which keep the damp and cold out, while also ensuring it is breathable and comfortable to wear.

The Deer padded jacket or waistcoat is a perfect choice, when you either need an extra layer or just a stylish lightweight outdoor jacket. The stretch fabric on the side of the body provides great freedom of movement.

# PRO GAMEKEEPER / GAMEKEEPER

## HUNTING AND OUTDOOR APPAREL FOR EVERY SITUATION

The PRO Gamekeeper series is made for professionals who know what is required of their clothing when hunting outdoors on a daily basis. PRO Gamekeeper is a robust series for raw weather and stony terrain. The jackets comes with a Deer-Tex® Performance Shell membrane and taped seams, which makes them 100% windproof, waterproof and breathable. PRO Gamekeeper also features waterproof zippers and zippers under the arms for increased ventilation when physically active.

The Gamekeeper series from Deerhunter® is for you who prefer an active hunt where a hunting jacket will be too hot. Gamekeeper Fleece jackets and waistcoats have many useful pockets, as well as a Deerhunter® Stormliner® Membrane, which protects you from weather and wind.

BY APPOINTMENT TO THE ROYAL DANISH COURT

# APPROACH

## MODERN HUNTING SERIES IN THE EXCLUSIVE REALTREE® ADAPT CAMOUFLAGE

Approach is available in the exclusive REALTREE ADAPT™ camouflage, which allows you to blend in completely with your surroundings. The set is extremely silent and provides optimal opportunities for getting close to your quarry, making it especially suitable for all types of hunting. Approach is designed for the active hunter with focus on freedom of movement, high breathability and comfort.

Besides the jacket, trousers and t-shirt, the Approach series also includes a face mask, cap and gloves – all of them naturally in REALTREE ADAPT™ camouflage. Trousers and jacket are equipped with the Deerhunter® Stormliner® membrane in strategically correct areas. The entire series is impregnated with a high water repellent treatment. The series is also extremely breathable, which ensure the hunter stays comfortable during the hunt.

# GERMANIA / WINGSHOOTER

## FLEECE AND FIBER PILE APPAREL OF TOP QUALITY

Germania is a series that comprises four gorgeous fiber pile jackets. The design is simple and stylish and the series is limited to one single, functional choice of colour. Germania is the perfect outerwear for active nature lovers. The breathable, stretchable fabric makes the jackets ideal for a variety of outdoor activities.

The Wingshooter collection consists of three fleece products in three different colours. On a warm day, a fleece jacket or fleece waistcoat is the preferred choice of outerwear for outdoor activities. The Wingshooter series is both practical and attractive.

All the jackets and waistcoats can be machine washed and are easy to take care of.

# LOFOTEN / ROGALAND

## OUTDOOR APPAREL FOR THE DIS- CERNING OUTDOOR ENTHUSIAST

.....

These two series are specially designed for work in the wild outdoors. Lofoten is a robust series supplied with a water and dirt repellent surface treatment that makes the products easy to clean and care for. The Lofoten series is OEKO-TEX® certified, which is your guarantee for a product without harmful substances.

Rogaland is a comfortable all-around hunting and outdoor series comprising of trousers, jackets, a swat and a hoodie, all designed to match your outdoor needs. Rogaland's great versatility makes it one of Deerhunter's most popular product series.

# HEAT

## INSTRUCTIONS

### Charging the powerbank

Charge the powerbank by using the USB / micro USB cable, which is included in the package. The four small LED lights on the powerbank indicates the status of the charging process. As soon as all the LED lights are on, unplug the charger and the powerbank is now ready for use.

### How to use your new Heat product

Attach the powerbank to the cable inside the lower inner pocket of the jacket or waistcoat by using the USB port.

Turn on the powerbank by pressing the ON/OFF button on the side. After activated, place the powerbank in the lower inner pocket.

To activate the heat function press and hold the power button inside the chest pocket until the light turns on.

Choose one of following temperatures:

- Red light - high temperature 55°C
- Green light – medium temperature 45°C
- Blue light – low temperature 38°C

To turn off the heat function press and hold the power button inside the chest pocket for 3 seconds or until the light turn off.

The ON/OFF button on the powerbank will then automatically turn off after approximately 1 minute. The heat functions can also be turned off by holding down the ON/OFF button on the powerbank for at least 10 sec.

To restart the heat function please press the ON/OFF button on the powerbank and turn on the heat function by pressing the power button inside the chest pocket until the light turns on again.

### Wash and care

1. Always remove the powerbank when washing your heat product and make sure to put on the safety stopper on the USB cable during washing to protect it
2. Use a gentle program of maximum

40°C without softener.

3. No dry clean.
4. No ironing.
5. Tumble dry at low temperature with a few tennis balls.

### Furthermore, we recommend

Always charge the powerbank until it is fully charged. Avoid overcharging your power bank as this can cause its battery life to decrease.

Please disconnect and remove the powerbank before long time storage

All the components are securely tested as well as they are CE and RoHS approved. Your safety is our concern!

# PULL-OVERS

## PULL-OVERS FOR EVERY OCCASION

A pull-over is not a piece of outerwear in itself, but as the name suggests, it is something that can be pulled over your hunting apparel when the hunt requires a special type of clothing.

Deerhunter's pull-overs are available as signal clothing, winter camouflage and in several sneaky varieties that enable the hunter to blend in completely with the woodland.

# RAINWEAR

## RAINWEAR SPECIALLY DESIGNED FOR HUNTERS AND OUTDOOR ENTHUSIASTS

Hunters and outdoor enthusiasts are drawn outside by the urge to expose themselves to the elements and to experience nature to the fullest. But sometimes you need to find your rainwear to avoid a washout!

Rainwear for the hunter and outdoor enthusiasts must, like other outdoor apparel, offer a high degree of comfort and good freedom of movement.

Choose a set of rainwear which can be worn over your regular hunting or outdoor apparel. It is practical to be able to quickly put on a raincoat when it clouds over, and very nice to be able to take it off again when the sun bursts through.

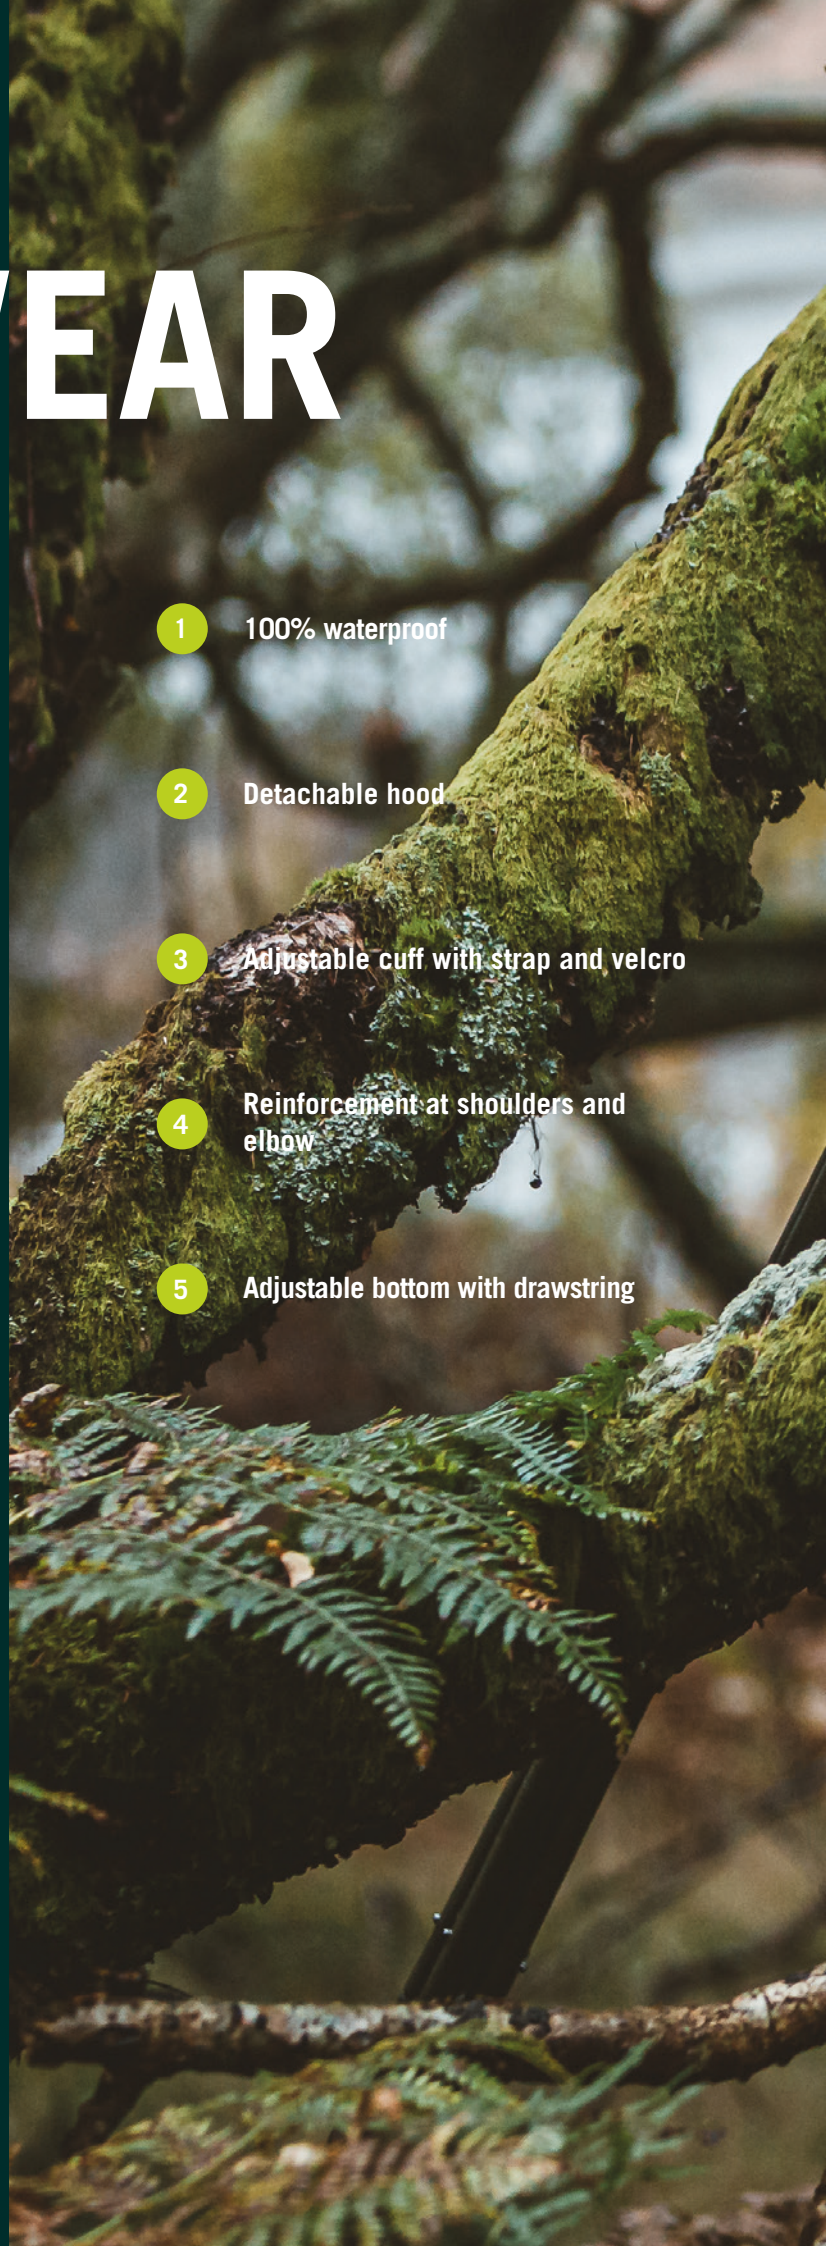

There is every reason to make life as easy as possible for yourself, which you can do by choosing apparel from Deerhunter's wide range of rainwear.

# UNDERWEAR / INNER LAYERS

## CHOOSING THE CORRECT LAYER

The inner layer of clothing, which lies next to the skin, needs to be both comfortable and functional. It has to keep the body warm, and wick perspiration away so that you don't feel clammy and cold. When choosing underwear, you should consider the outdoor temperature and the degree of physical activity.

Usually, synthetic fabrics are recommended for warmer weather and for when you're being physically active. In cold weather with low levels of physical activity, you should choose wool.

Deerhunter's underwear and inner layers is specially manufactured to meet the needs of both hunters and outdoor enthusiasts. Don't underestimate the importance of good underwear! It's the hunter's best friend when the cold sets in, and the yearning to hunt forces you outside.

INSULATED SWEAT JACKET

# SHIRTS

## A WIDE RANGE OF SHIRTS FOR ANY OCCASION

Deerhunter® shirts come in several variants, ranging from classic cotton shirts to high-tech models made from eco-friendly bamboo fibres with antibacterial and moisture-wicking properties. The hollow bamboo fibres used for the hunting shirt are very soft, and naturally regulate the temperature and neutralise body odour so that the garment is comfortable to wear in all types of weather.

The shirts each have a wide range of exciting details, such as pleats in the back for enhanced freedom of movement and a superior fit, suede patches on the elbows for additional reinforcement, good and practical chest pockets and a practical pencil pocket.

All Deerhunter's hunting shirts are machine-washable and easy to iron, so they can be worn again and again for everyday use, hunting and festive occasions.

BY APPOINTMENT TO THE ROYAL DANISH COURT

# LADIES

## STYLISH AND FUNCTIONAL DESIGN

Whether you are into stalking, game bird shooting or just a walk with your dog, Deerhunter's ladies collection will have you well covered. The series is designed to be used in different types of terrain and climate and will keep you comfortable, warm and dry.

Deerhunter® has drawn inspiration from some of our bestselling series and adapted these for the female hunter. The jackets have adjustable waistline to shape the jacket, roomy and ergonomic pockets and detachable hood. The extremely soft quilted jacket and waistcoat offer every woman a perfect waist shape and good comfort. The shirts are designed in a stylish cut and is available in multiple colours and variations, which fits any hunting suit. The technical trousers, which you can choose both with or without reinforcements, comes with 4-way stretch and a Deer-Tex® Performance shell membrane, which ensures a dry and breathable outdoor experience.

BY APPOINTMENT TO THE ROYAL DANISH COURT

**Deerhunter®**

- 1 Membrane, with a 5-year warranty
- 2 Two-way YKK zipper at center front
- 3 Radio pocket with waterproof zipper and rubber hole for antenna
- 4 Neoprene storm cuff at sleeves
- 5 Detachable hood

# ACCESSORIES

## A MODERN MIX FOR HUNTING ON THE MOVE

Accessories are all the small essentials that make a big difference on the day when you're standing, walking or sitting out there in the great outdoors!

Accessories are always good to have with you. On rainy or cold winter days, it's important to have the right gear that keeps you dry and warm – in particular your feet, neck, head and hands, which are all exposed. Once your fingers or toes start feeling the cold, it spreads to the rest of your body, and it will soon feel like a long day. It's important that you prioritise good basic equipment.

Deerhunter® has a wide range of accessories for every occasion.

- 1 100% Wool
- 2 Accessories for every occasion
- 3 Real leather strap with buckle around the hat
- 4 Crushable
- 5 2-way-stretch

# ILLUSTRATIONS

## DEERHUNTER ILLUSTRATIONS

In consultation with hunters and through extensive testing, Deerhunter's design team assesses which combination of materials is best for a particular product. Deerhunter uses materials which are durable and flexible so as not to restrict your freedom of movement.

When stalking, the hunter needs silent stretchable materials – in order to be able to easily, effortlessly and silently move across the terrain. Dog handlers and drivers often need a hunting outfit with a very breathable membrane, as well as extra reinforcements on the trousers. It is also a good idea to pack strong overtrousers, as they protect against thorns and dense undergrowth. Here, it is important that you choose products which are suitable for the 'challenges' you will encounter outdoors.

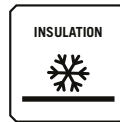

BY APPOINTMENT TO THE ROYAL DANISH COURT

**Deerhunter®**

### BREATHABLE

No matter in which weather situation you find yourself, choosing a breathable Deerhunter® product, allows you to maintain your comfort while being active and subsequently enjoy your experience more.

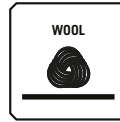

### INSULATION

If you want to hunt in very cold temperatures, you will benefit greatly from choosing hunting apparel with insulation. Padding or insulation is designed to keep you warm. It is important that you are able to maintain a stable body temperature throughout the day so that you don't freeze.

### THORNPROOF

When nature challenges us in tough terrain, it demands even more of our hunting apparel. Here, Deerhunter has developed its Thornproof products, which are made from extra strong fabrics with the sole purpose of being able to withstand scrub and thorns.

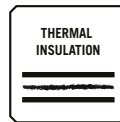

### WOOL

Wool is warmer than synthetic fabrics – whether it's wet or dry. Wool wicks moisture much more effectively than cotton, but not quite as well as synthetic fabrics. Wool also takes considerably longer to dry than synthetics.

### TWO-WAY STRECH

If you require extra freedom of movement and a good fit, choose one of Deerhunter's products with stretch. Using materials with two-way stretch makes the hunting apparel stretchable, which enhances your freedom of movement.

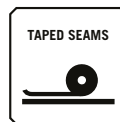

### THERMAL INSULATION

If you want to hunt in very cold temperatures, you will benefit greatly from choosing hunting apparel with insulation. Padding or insulation is designed to keep you warm. It is important that you are able to maintain a stable body temperature throughout the day so that you don't freeze.

### FOUR-WAY STRETCH

When choosing hunting apparel, and you need maximum flexibility, freedom of movement and a good fit, you should choose Deerhunter's products with four-way stretch. Hunting apparel with four-way stretch is elastic both lengthways and widthways, enabling you to move around freely without feeling constricted by your clothing.

### TAPED SEAMS

Deerhunter's technical hunting products feature taped seams. Taped seams are often used in connection with different types of membrane to ensure you avoid a wet and sodden hunting experience. Products tagged with taped seams are 100% waterproof.

### QUICK DRY

Products treated with quick dry are breathable, and dry faster than other garments. Body moisture is absorbed, and wicked away from the skin so that it evaporates. Consequently, it's easier for you to maintain a stable body temperature and stay dry when hunting.

### WINDPROOF

If you choose one of Deerhunter's products which have a membrane, it will automatically be windproof. Windproofing is the garment's ability to keep the wind out. If you sit for a long time in a strong breeze, you will quickly appreciate the fact that the garment is windproof.

### REINFORCEMENT

If you're stalking your way to your dream buck, or walking across hard terrain, your hunting apparel will be subjected to extra wear and tear. Here, extra reinforcement and durable materials in exposed places are required.

### SILENT

Noisy hunting apparel can quickly ruin a good stalk or hunting expedition. Our specially selected silent fabric has been chosen to minimize noise and the design have been optimized to reduce friction around the arm and leg area. Get closer to the animals with Deerhunter Silent.

### LIGHTWEIGHT

Lightweight clothing from Deerhunter ensures a comfortable hunting experience and provides extra freedom of movement without adding extra weight.

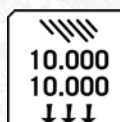

### WATER REPELLENT

Products impregnated with water repellent treatment are water- and dirt-resistant. Stains are easy to remove and has a very smooth surface.

### 100% WATERPROOF

Wet and sodden hunting apparel can quickly mar a good hunting expedition. Deerhunter therefore always recommends waterproof products for hunting in rainy weather. A special combination of materials and processes enables us to develop products which are 100% waterproof.

### WATERPROOF & BREATHABILITY

Water penetration resistance is measured in "millimetre water column pressure". The water column pressure is measured by placing a liquid column gauge over the material so that material with water penetration resistance 5.000 mm can keep water out from a five metre (5.000 mm) gauge.

MVP value indicates breathability of a membrane. MVP value is an expression of the quantity of water vapour that can escape through one square meter of a membrane within 24 hours. A breathable product rated at 5.000 can therefore "breathe" 5.000 g (5 litres) water vapour per square metre in 24 hours.

### MEMBRANE WARRANTY

Five-year warranty on manufacturing defects in the Deer-*Tex*® membrane. The Deer-*Tex*® membrane warranty only covers manufacturing defects.

# SIZE GUIDE

## THIS IS HOW TO MEASURE YOURSELF CORRECTLY

Get someone to help you so you can measure more exactly. Stand in a relaxed position. Place the measuring tape directly on your body. The tape should be reasonably tight, but not too tight. If you allow enough space to slide a finger under the tape, you will get the correct measurements
